## Brief information of the project by SEAC

During discussion PP informed that they have obtained TOR approval in the 124th meeting of SEAC-1 held on 30th & 31st March 2016 under category 5(f)B1 and now PP submitted the EIA report.

It was brought to the notice of PP that they have uploaded the EIA report on 14th August 2017 and the expert members have not read the same in such a short time. Hence SEAC-1 decided to defer the proposal in this meeting and will be considered in ensuing meeting.

## DECISION OF SEAC

SEAC - I decided to recommend the proposal for prior Environment Clearance.

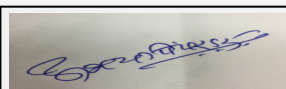

### Specific Conditions by SEAC:

- 1) PP to submit an undertaking for not violating any conditions of EIA Notification, 2006.
- 2) PP to submit letter/permission from MIDC on their name for total water requirement of 700 KLD.
- 3) PP to use biomass as a fuel for proposed two boilers.

## FINAL RECOMMENDATION

SEAC-I have decided to recommend the proposal to SEIAA for Prior Environmental clearance subject to above conditions

### Brief information of the project by SEAC

PP submitted their application for the grant of TOR under category 5(f)B1 as per EIA Notification, 2006. PP presented draft TOR based on standard TOR issued by MoEF& CC published in April, 2015.

As the industry is located in the notified industrial area/estate (MIDC), Public Hearing is exempted under the provisions as per Para 7 III Stage (3) (b) of the EIA Notification, 2006.

Draft Terms of Reference (TOR) have been discussed and finalized during 138th meeting of SEAC-1. The committee prescribed the following additional TOR along with Standard TOR as available on the Ministry of Environment, Forest and Climate Change website for preparation of EIA-EMP report.

### DECISION OF SEAC

PP remained absent.

#### Specific Conditions by SEAC:

- 1) PP to submit self-certificate for not making any product mix, no increase in pollution load, no increase in production quantity etc from the issuance of EIA Notification, 1994,2004 and 2006 and their consented quantities; PP also to mention categorically that none of the requirement of EIA Notification has been violated by them.
- 2) PP to submit their plan to achieve 33% of green belt as per National Forest Policy.
- 3) PP to submit copies of On Site and Off Site Emergency Preparedness Plan duly accepted by competent authority.
- 4) PP to include detailed material balance charts for each product showing consumption of raw material, sources of pollution and mitigation measures to control the pollution and justified use of resources along with quantities in the EIA report.
- 5) It was observed that the Methanol recovery is less and there is scope to increase the same to reduce the emissions to the Environment; PP to address the same in EIA report.

### FINAL RECOMMENDATION

### **Brief information of the project by SEAC**

PP submitted their application for the grant of TOR under category 5(f)B1 as per EIA Notification, 2006. PP presented draft TOR based on standard TOR issued by MoEF & CC published in April, 2015.

As the industry is located in the notified industrial area/estate (MIDC), Public Hearing is exempted under the provision as per para 7 III Stage (3) (b) of the EIA Notification, 2006.

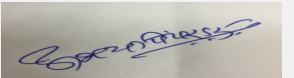

During deliberation PP informed that they have not made any changes in the production quantity, product mix, pollution load or in any environmental parameters since 1996.

Draft Terms of Reference (TOR) have been discussed and finalized during 138th meeting of SEAC-1. The committee prescribed the following additional TOR along with Standard TOR as available on the Ministry of Environment, Forest and Climate Change website for preparation of EIA-EMP report.

1. PP to submit self declaration giving year wise details of manufacturing of products, their quantities, pollution load etc. PP also to mention that none of the requirements of the EIA Notification, 2006 has been violated till date in their self certificate.
2. PP to submit their plan for achieving 33% green belt as per National Forest Policy.
3. PP to submit copies of On Site and Off Site Emergency Preparedness Plan duly accepted by competent authority.
4. PP to use chemical names of the products instead of the commercial name/brand etc.

Now PP submitted EIA report for appraisal.
