RED/S.S.I (R32)
No:- Format1.0/RO(BMW)/UAN
No.0000156002/CO/2310000288

Date: 05/10/2023

To,
M/s Sneha Steel and Scrap Center,
Gut No.669 & 670, Jadhavwadi,
Chikhali, Tal. Haveli, Dist. Pune

Sub: Consent to Operate under RED / SSI category with amalgamation and overriding effect on the existing consent granted by the Board vide Ref. (1) below.

- Ref:**
1. Consent to Operate granted by the Board vide No. RO-PUNE/CONSENT/2109000940 dated 21/09/2021 valid up to 30/06/2025.
 2. Amendment in Consent granted by Board vide No. BO/MPCB/RO(BMW)/Pune/CO/B-2208000022 dated 12/08/2022.
 3. Consent to Establish (Expansion) granted by the Board vide No. Format 1.0/RO(BMW)/UAN No. 0000140773/CE/2212000280 dated 05/12/2022.

Your application No.MPCB-CONSENT-0000156002 Dated 13.12.2022

For: grant of Consent to Operate under Section 26 of the Water (Prevention & Control of Pollution) Act, 1974 & under Section 21 of the Air (Prevention & Control of Pollution) Act, 1981 and Authorization under Rule 6 and Rule 18(7) of the Hazardous & Other Wastes (Management & Transboundary Movement) Rules 2016 is considered and the consent is hereby granted subject to the following terms and conditions and as detailed in the schedule I, II, III & IV annexed to this order:

1. **The consent to operate is granted for a period up to 30/06/2025**
2. **The capital investment of the project is Rs.3.6 Crs. (As per C.A Certificate submitted by industry)**
3. **Consent is valid for the manufacture of:**

Sr No	Product	Maximum Quantity	UOM
Products			
1	Reconditioning / Washing and Cleaning of Contaminated MS Drums / Plastic Drums, Carboys, Barrels and Containers*	60000	Nos./Y
*Using Environmentally Sound Technology as per the provisions of H & OW (M & TM) Rules, 2016 and Subject to having valid authorization under Rule (6) of H & OW (M & TM) Rules, 2016.			
2	Collection, Segregation, Dismantling, & Refurbishing of E-Waste (ITEW - 1 to 27, CEEW - 1 to 19, LSEEW - 1 to 34, EETW - 1 to 8, TLSEW - 1 to 6, MDW - 1 to 10 & LIW - 1 & 2).**	120	MT/A

Sr No	Product	Maximum Quantity	UOM
**Using Environmentally Sound Technology as per the provisions of E-Waste (Management) Rules and Subject to having valid Registration from Central Pollution Control Board under Sub-Rule (4) & (7) of the E-waste Management Rules, 2022.			
3	Reprocessed Plastic Granules (Only Dry Process)	20	MT/M
4	Segregation and Separation of MS Scrap, SS Scrap, Metal Scrap, Waste Papers, Corrugated boxes, Carboys, Wood Scrap	200	MT/M

4. **Conditions under Water (P&CP), 1974 Act for discharge of effluent:**

Sr No	Description	Permitted (in CMD)	Standards to	Disposal Path
1.	Trade effluent	0.85	As per Schedule-I	To Evaporator - To achieve zero liquid discharge.
2.	Domestic effluent	1.3	As per Schedule-I	Soaked in soak pit

5. **Conditions under Air (P& CP) Act, 1981 for air emissions:**

Sr No.	Stack No.	Description of stack / source	Number of Stack	Standards to be achieved
1	0	NA	0	As per Schedule -II

6. **Non-Hazardous Wastes:**

Sr No	Type of Waste	Quantity	UoM	Treatment	Disposal
1	NA	0	--NA--	0	NA

7. **Conditions under Hazardous & Other Wastes (M & T M) Rules 2016 for Collection, Segregation, Storage, Transportation, Treatment and Disposal of hazardous waste:**

Sr No	Category No./ Type	Quantity	UoM	Treatment	Disposal
1	31.1 Process residue and wastes	1.0	MT/A	NA	CHWTSDF
2	34.1 Chemical-containing residue arising from decontamination.	1.0	MT/A	NA	CHWTSDF
3	34.2 Sludge from treatment of waste water arising out of cleaning / disposal of barrels / containers	1.2	MT/A	NA	CHWTSDF

The industry shall procure and carry out Reconditioning / Washing and Cleaning of Contaminated MS Drums / Plastic Drums, Carboys, Barrels and Containers - 60000 Nos/A.

8. **Conditions under Plastic Waste Management Rules, 2016 (Notification dtd. 18/03/2016):**

Sr No	Type of Waste	Quantity	UoM	Disposal Path
1	NA	0.00	--NA--	NA

9. **Conditions under E-Waste Management:**

Sr No	Type of Waste	Quantity	UoM	Disposal Path
1	NA	0.00	--NA--	NA

10. The Board reserves the right to review, amend, suspend, revoke this consent and the same shall be binding on the industry.
11. This consent should not be construed as exemption from obtaining necessary NOC/ permission from any other Government authorities.
12. The industry shall obtain permission from Directorate of Industrial Safety & Health (DISH).
13. Industry shall develop green belt on 33 % of the open plot area of the unit. Industry shall also develop greenbelt outside the project premises such as avenue plantation, plantation in vacant areas, social forestry etc.
14. The industry shall submit the Annual Returns as per Rule (5 (6) and 22 (2) of Hazardous & Other Wastes (M & TBM) Rules, 2016 for the preceding year April to March in Form-IV by 30th June of every year. The returns shall be submitted online on the MPCB portal.
15. The industry shall properly collect, transport and regularly dispose the hazardous waste to CHWTSDf, in compliance with the Hazardous & Other Wastes (Management & Transboundary Movement) Rules, 2016 and keep proper manifest thereof.
16. The industry shall comply with the Standard Operating Procedure (SOP) prepared by Central Pollution Control Board regarding Utilization of Contaminated Barrels / Containers / Drums containing Hazardous Wastes / Chemicals / Oil and Lubricants.
17. The industry shall comply with conditions stipulated in the Authorization issued by MPCB vide No. MPCB/RO(BMW)/HSMD/Autho/23/H&OW/79 dated 04/10/2023 valid up to 31/08/2028 for Reconditioning / Washing / Cleaning of Contaminated MS Drums, Plastic Drums, Carboys, Barrels and Containers - 60000 Nos./A.
18. The industry shall collect E-waste generated during the process of refurbishing and hand over the waste to registered recycler and upload the information on the portal.
19. The industry shall maintain records of E-waste collected, dismantled, refurbished and sent to the registered recycler on the portal and make available all records for verification or audit as and when required.
20. The industry shall file annual and quarterly return of E-waste in the laid down form on the portal on or before the end of month succeeding the quarter or year, as the case may be, to which the return relates.
21. The industry shall obtain Registration from Central Pollution Control Board under Sub-Rule (4) & (7) of the E-waste Management Rules, 2022 for the collection, segregation, dismantling & refurbishing of E-waste by applying on the centralized portal (www.eprewastecpcb.in).
22. Industry shall not manufacture banned Single Use Plastic (SUP) items as well as not sell finished products to manufacturers of banned SUP items as per Maharashtra Plastic and Thermocol (Manufacture, Usage, Sale, Transport, Handling & Storage) Notification, 2018 and amendment thereto and Plastic Waste Management Rules, 2016 and amendment thereto.
23. Industry shall not manufacture any products which are banned as per Notification of Government of Maharashtra vide No. Plastic-2018/CR/No.24/TC-4 dated 23/03/2018 and amendment from time to time.

24. Industry shall not supply plastic raw material to producers (in formal / informal sector) engaged in production of banned Single Use Plastic items as per Rule 4 (2) of Plastic Waste Management Rules, 2016 (The manufacture, import, stocking, distribution, sale and use of following Single Use Plastic, including polystyrene and expanded polystyrene, commodities, shall be prohibited with effect from 1st July 2022 - (a) ear buds with plastic sticks, plastic sticks for balloons, plastic flags, candy sticks, ice-cream sticks, polystyrene (thermocool) for decoration. (b) plates, cups, glasses, cutlery such as forks, spoons, knives, straw, trays, wrapping or packing films around sweet boxes, invitation cards and cigarette packets, plastic or PVC banners less than 100 micron, stirrers.
25. Industry shall not supply plastic raw material to producers (in formal / informal sector) engaged in production of banned Plastic items as per Maharashtra Plastic and Thermocol (Manufacture, Usage, Sale, Transport, Handling & Storage) Notification, 2018 dated 23/3/2018 and amendment(s) thereto, the manufacture, usage, transport, distribution, wholesale & retail sale and storage, import of following items is completely banned - (a) plastic bags with or without handle (b) disposable products manufactured from plastic and thermocol (polystyrene) such as single use disposable dish, cups, plates, glasses, fork, bowl, container, disposable dish/bowl used for packaging food in hotels, spoon, straw, non-woven polypropylene bags, cups / pouches to store liquid, packaging with plastic to wrap or store the products (c) plastic or thermocol for decoration purpose.
26. Industry shall ensure that supplier / stockiest / dealers and other entities engaged in industry's supply chain does not supply plastic raw material to producers engaged in production of aforesaid banned SUP items.
27. The industry shall obtain Registration as 'Plastic Waste Re-processor' from Central Pollution Control Board / Maharashtra Pollution Control Board as per provisions of Plastic Waste Management Rules, 2016 for the re-processing of scrap plastic.
28. The applicant shall make an application for renewal of consent 60 days prior to date of expiry of the consent.
29. Industry shall comply with following conditions for cleaning of contaminated drums/ containers/ barrels
 - a) Handling and Storage:
 - i) Separate covered storage area for both contaminated containers and cleaned containers. There should be proper slope and spillage collection pit.
 - ii) The manifest system and logbook should be maintained. Labelling should be done on all contaminated drums indicating source and date of receipt and type of drum.
 - iii) Prior to cleaning, the left over or residual material in the drum should be transferred into a separate container for safe storage and disposal at TSDF
 - b. Cleaning Procedure:
 - i) There shall be 2 stage cleaning of drums i.e. caustic /surfactants (detergents) cleaning followed by fresh water cleaning.
 - ii) All the drums should be cleaned with hot caustic solution upto 2% concentration of detergent.
 - iii) Provide bund wall along the container storage and washing area with proper slope and collection pit for channelization to ETP or further treatment

- iv) For washing drum/containers in both the stages, the number of nozzles in 1 HP pump shall not exceed 3. Each of these nozzles can clean maximum 2 nos of drums per hour. Thus number of nozzles and pump capacity thereof shall accordingly installed for permitted quantity.
- v) The nozzles should have multiple jets to ensure that water jets hit entire inner surface of containers
- vi) There should be separate area with provision of hose pipe with spray nozzles for washing outer surface of the containers.
- c) Effluent Treatment :
 - i) In case of evaporator, flow through evaporator should be regulated based on heating capacity of the evaporator. Water flow meter shall be installed at the inlet to the evaporator and the inlet to ETP.
 - ii) The vent of the vacuum pumps should be elevated at least upto 6 mtr above the roof level.
- d. Labelling of cleaned drums for re-use:
 - i) The labels on the washed containers for re-use should be removed (preferable with a paint) and the cleaned containers should be labelled with prominent indelible text: "Drum cleaned by and Date" "For industrial use only"
 - ii) The above is not applicable in case the cleaned drums are shredded and recycled.

Received Consent fee of -

Sr.No	Amount(Rs.)	Transaction/DR.No.	Date	Transaction Type
1	15000.00	TXN2302000246	02/02/2023	Online Payment

Copy to:

1. Regional Officer, MPCB, Pune and Sub-Regional Officer, MPCB, Pimpri Chinchwad
- They are directed to ensure the compliance of the consent conditions.
2. Chief Accounts Officer, MPCB, Sion, Mumbai

SCHEDULE-I

Terms & conditions for compliance of Water Pollution Control:

1. A] As per your application, you have provided Effluent Treatment Plant (ETP) of designed capacity of 2.00 CMD consisting of Primary (Collection tank, Equalization tank), Tertiary (Pressure sand filter, Activated carbon filter), Advanced treatment (Evaporator) for the treatment of 0.85 CMD of trade effluent.
- B] The Applicant shall operate the effluent treatment plant (ETP) to treat the trade effluent so as to achieve the following standards prescribed by the Board or under EP Act, 1986 and Rules made there under from time to time, whichever is stringent:

Sr.No	Parameters	Limiting concentration not to exceed in mg/l, except for pH
(1)	pH	6.0 -8.5
(2)	BOD (3 days 27°C)	30
(3)	COD	250
(4)	TSS	100
(5)	Oil & Grease	10

- C] The Industry shall ensure connectivity online monitoring system to the MPCB server including separate energy meter for pollution control system.
 - D] The treated effluent shall be recycled for secondary purposes to the maximum extent and remaining shall be discharged on land for gardening within premise after confirming above standards. In no case, effluent shall find its way for gardening / outside factory premises.
2. A] As per your application, you have provided Septic Tank followed by Soak pit for the treatment of 1.3 CMD of sewage.
 - B] The Applicant shall operate the sewage treatment system to treat the sewage so as to achieve the following standards.

Sr.No	Parameters	Standards (mg/l)	
1	Suspended Solids	Not to exceed	50
2	BOD 3 days 27°C	Not to exceed	30
3	COD	Not to exceed	100

- C] The treated sewage shall be recycled for secondary purposes to the maximum extent and remaining shall be discharged on land for gardening within premise after confirming above standards. In no case, sewage shall find its way for gardening / outside factory premises.
3. The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification there of & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant shall obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system or an extension or addition thereto.

4. The industry shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.
5. The Applicant shall comply with the provisions of the Water (Prevention & Control of Pollution) Act, 1974 and as amended, by installing water meters and other provisions as contained in the said act:

Sr. No.	Purpose for water consumed	Water consumption quantity (CMD)
1.	Industrial Cooling, spraying in mine pits or boiler feed	0.00
2.	Domestic purpose	1.45
3.	Processing whereby water gets polluted & pollutants are easily biodegradable	1.00
4.	Processing whereby water gets polluted & pollutants are not easily biodegradable and are toxic	0.00
5.	Gardening	0

6. The Applicant shall provide Specific Water Pollution control system as per the conditions of EP Act, 1986 and rule made there under from time to time/ Environmental Clearance/ CREP guidelines.

SCHEDULE-II

Terms & conditions for compliance of Air Pollution Control:

1. As per your application, you have provided the Air pollution control (APC) system and erected following stack (s) to observe the following fuel pattern:

Stack No.	Source	APC System provided/proposed	Stack Height(in mtr)	Type of Fuel	Sulphur Content(in %)	Pollutant	Standard
0	NA	NA	0.00	0 0 -- NA--	-	NA	-

2. The Applicant shall provide Specific Air Pollution control equipments as per the conditions of EP Act, 1986 and rule made there under from time to time/ Environmental Clearance / CREP guidelines.
3. The applicant shall operate and maintain above mentioned air pollution control system, so as to achieve the level of pollutants to the following standards:

Parameters	Standards (unit)	
Total Particulate Matter	Not to exceed	150 mg/ Nm3

4. The Applicant shall obtain necessary prior permission for providing additional control equipment with necessary specifications and operation thereof or alteration or replacement/alteration well before its life come to an end or erection of new pollution control equipment.
5. The Board reserves its rights to vary all or any of the condition in the consent, if due to any technological improvement or otherwise such variation (including the change of any control equipment, other in whole or in part is necessary).

SCHEDULE-III

SCHEDULE-IV
General Conditions:

1. The waste generator shall.-
 - a) take steps to minimize generation of plastic waste and segregate plastic waste at source in accordance with the Plastic Waste Management Rules, 2016 or as amended from time to time.
 - b) not litter the plastic waste and ensure segregated storage of waste at source and handover segregated waste to urban local body or gram panchayat or agencies appointed by them or registered waste pickers', registered recyclers or waste collection agencies;
2. All institutional generators of plastic waste, shall segregate and store the waste generated by them in accordance with the Plastic Waste Management Rules, 2016 amendment from time to time and handover segregated wastes to authorized waste processing or disposal facilities or deposition centers either on its own or through the authorized waste collection agency.
3. All waste generators shall pay such user fee or charge as may be specified in the byelaws of the local bodies for plastic waste management such as waste collection or operation of the facility thereof, etc.;
4. Every person responsible for organizing an event in open space, which involves service of food stuff in plastic or multilayered packaging shall segregate and manage the waste generated during such events in accordance with the Plastic Waste Management Rules, 2016 amendment from time to time.
5. Consumers or bulk consumers of electrical and electronic equipment listed in Schedule I shall ensure that e-waste generated by them is channelised through collection centre or dealer of authorised producer or dismantler or recycler or through the designated take back service provider of the producer to authorised dismantler or recycler
6. Bulk consumers of electrical and electronic equipment listed in Schedule I shall maintain records of e-waste generated by them in Form-2 and make such records available for scrutiny by the concerned State Pollution Control Board
7. Consumers or bulk consumers of electrical and electronic equipment listed in Schedule I shall ensure that such end-of-life electrical and electronic equipment are not admixed with e-waste containing radioactive material as covered under the provisions of the Atomic Energy Act, 1962 (33 of 1962) and rules made there under;
8. Bulk consumers of electrical and electronic equipment listed in Schedule I shall file annual returns in Form-3, to the concerned State Pollution Control Board on or before the 30th day of June following the financial year to which that return relates. In case of the bulk consumer with multiple offices in a State, one annual return combining information from all the offices shall be filed to the concerned State Pollution Control Board on or before the 30th day of June following the financial year to which that return relates.
9. Specific Conditions for storage, Handling and Disposal of Waste from Electrical & Electronic equipment (WEEE):
 1. **Collection of WEEE** - The applicant must provide appropriate and dedicated vehicles duly identified as per the norms for transportation of Hazardous Waste. The applicant shall obtain all the required permits for transportation of WEEE from competent authority. The applicant shall ensure the safe transport of the WEEE without any spillage during transportation.
Storage for disassembled parts: The applicant must provide appropriate storage for disassembled spare parts from WEEE. Some spare parts (e.g. motors and compressors) will contain oil and/or other fluids. Such part must be appropriately segregated and stored in containers that are secured such that oil and other fluids cannot escape from them. These containers must be stored on an area with an area with an impermeable surface and a sealed drainage system.

2. **Storage for other components and residues:** Other components and residues arising from the treatment of WEEE will need to be contained following their removal for disposal or recovery. Where they contain hazardous substances they should be stored on impermeable surface and in appropriate containers or bays with weatherproof covering. Containers should be clearly labelled to identify their contents and must be secured so that liquids, including rain water cannot enter them. Components should be segregated having regard to their eventual destinations and the compatibility of the component types. All batteries should be handled and stored having regard to the potential fire risk associated with them.
3. **Balances :** WEEE Guidelines also requires that sites for handling of WEEE have "balances to measure the weight of the segregated waste". The objective is to ensure that a record of weights can be maintained of WEEE entering a facility and components and materials leaving each site (together with their destinations). The nature of the weighing equipment should be appropriate for the type and quantity of WEEE being processed.
4. Plastic, which cannot be recycled and is hazardous in nature, is recommended to be land filled in nearby CHWTSDF.
5. Ferrous and nonferrous metal recycling facilities fall under the purview of existing environmental regulations for air, water, noise, land and soil pollution and generation of hazardous waste and the same should be followed.
6. CFCs should be either reused or incinerated in common hazardous waste Incineration facilities at CHWTSDF.
7. Waste Oil should be either reused or incinerated in common hazardous waste incineration facilities.
8. PCB's containing capacitors shall be incinerated in common hazardous waste incineration facilities at CHWTSDF.
9. Mercury recovery and lead recycling facilities from batteries fall under the Hazardous & Other Wastes (M & TM) Rules, 2016.
10. Existing environmental regulations for air; water; noise, land and soil pollution and generation of hazardous waste and the same should be followed. In case Mercury or lead recovery is very low, they can be temporarily stored at e-waste recycling facility and later disposed in TSDF.
11. The industry shall maintain records of the e-waste purchased, processed in Form-2 and shall file annual returns of its activities of previous year in Form-3 as per Rules 11(9) & 13(3)(vii) of the E-Waste(M) Rules, 2016; on or before 30th day of June of every year.
10. The Energy source for lighting purpose shall preferably be LED based
11. The PP shall harvest rainwater from roof tops of the buildings and storm water drains to recharge the ground water and utilize the same for different industrial applications within the plant
12. Conditions for D.G. Set
 - a) Noise from the D.G. Set should be controlled by providing an acoustic enclosure or by treating the room acoustically.
 - b) Industry should provide acoustic enclosure for control of noise. The acoustic enclosure/ acoustic treatment of the room should be designed for minimum 25 dB (A) insertion loss or for meeting the ambient noise standards, whichever is on higher side. A suitable exhaust muffler with insertion loss of 25 dB (A) shall also be provided. The measurement of insertion loss will be done at different points at 0.5 meters from acoustic enclosure/room and then average.
 - c) Industry should make efforts to bring down noise level due to DG set, outside industrial premises, within ambient noise requirements by proper siting and control measures.

- d) Installation of DG Set must be strictly in compliance with recommendations of DG Set manufacturer.
- e) A proper routine and preventive maintenance procedure for DG set should be set and followed in consultation with the DG manufacturer which would help to prevent noise levels of DG set from deteriorating with use.
- f) D.G. Set shall be operated only in case of power failure.
- g) The applicant should not cause any nuisance in the surrounding area due to operation of D.G. Set.
- h) The applicant shall comply with the notification of MoEFCC, India on Environment (Protection) second Amendment Rules vide GSR 371(E) dated 17.05.2002 and its amendments regarding noise limit for generator sets run with diesel.
13. The applicant shall maintain good housekeeping.
14. The non-hazardous solid waste arising in the factory premises, sweepings, etc. be disposed of scientifically so as not to cause any nuisance / pollution. The applicant shall take necessary permissions from civic authorities for disposal of solid waste.
15. The applicant shall not change or alter the quantity, quality, the rate of discharge, temperature or the mode of the effluent/emissions or hazardous wastes or control equipments provided for without previous written permission of the Board. The industry will not carry out any activity, for which this consent has not been granted/without prior consent of the Board.
16. The Board reserves the right to review, amend, suspend, revoke this consent and the same shall be binding upon you.
17. The industry shall submit quarterly statement in respect of industries obligation towards consent and pollution control compliance's duly supported with documentary evidences (format can downloaded from MPCB official site).
18. The industry shall submit official e-mail address and any change will be duly informed to the MPCB.
19. The industry shall achieve the National Ambient Air Quality standards prescribed vide Government of India, Notification No. B-29016/20/90/PCI-L dated. 18.11.2009 as amended.
20. This consent should not be construed as exemption from obtaining necessary NOC/permission from any other Government authorities.
21. The industry shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.
22. You shall operate OCEMS installed for source emission round 'O' clock and transmit data online to CPCB and MPCB server. You shall also monitor effluent quality, stack emissions and ambient air quality monthly/quarterly. You shall conduct Dioxin Furan monitoring by third party NABL Accredited agency once in year and submit report to Sub Regional Officer.
23. You shall ensure collection, and segregation of BMW regularly to treat and dispose Off within 48 hrs from generation.
24. Whenever due to any accident or other unforeseen act or even, such emissions occur or is apprehended to occur in excess of standards laid down, such information shall be forthwith Reported to Board, concerned Police Station, office of Directorate of Health Services, Department of Explosives, Inspectorate of Factories and Local Body. In case of failure of pollution control equipments, the production process connected to it shall be stopped.
25. The applicant shall provide an alternate electric power source sufficient to operate all pollution control facilities installed to maintain compliance with the terms and conditions of the consent. In the absence, the applicant shall stop, reduce or otherwise, control production to abide by terms and conditions of this consent.

26. The industry shall recycle/reprocess/reuse/recover Hazardous Waste as per the provision contain in the Hazardous and Other Wastes (M & TM) Rules 2016, which can be recycled /processed /reused /recovered and only waste which has to be incinerated shall go to incineration and waste which can be used for land filling and cannot be recycled/reprocessed etc. should go for that purpose, in order to reduce load on incineration and landfill site/environment.
27. An inspection book shall be opened and made available to the Board's officers during their visit to the applicant.
28. You shall not Rent, Lend, Sell, Transfer or Close Down the facility or otherwise transport the Bio Medical waste for any other purpose without obtaining prior written permission of the MPC Board.
29. Separate drainage system shall be provided for collection of trade and sewage effluents. Terminal manholes shall be provided at the end of the collection system with arrangement for measuring the flow. No effluent shall be admitted in the pipes/sewers downstream of the terminal manholes. No effluent shall find its way other than in designed and provided collection system.
30. Neither storm water nor discharge from other premises shall be allowed to mix with the effluents from the factory.
31. The industry should not cause any nuisance in surrounding area.
32. The industry shall take adequate measures for control of noise levels from its own sources within the premises so as to maintain ambient air quality standard in respect of noise to less than 75 dB (A) during day time and 70 dB (A) during night time. Day time is reckoned in between 6 a.m. and 10 p.m. and night time is reckoned between 10 p.m. and 6 a.m.
33. You shall ensure that fugitive emissions from the activity are controlled so as to maintain clean and safe environment in and around the facility premises.
34. The applicant shall provide ports in the chimney/(s) and facilities such as ladder, platform etc. for monitoring the air emissions and the same shall be open for inspection to/and for use of the Board's Staff. The chimney(s) vents attached to various sources of emission shall be designated by numbers such as S-1, S-2, etc. and these shall be painted/ displayed to facilitate identification.
35. The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions. The Applicant shall obtain prior consent of the Board to take steps to establish the unit or establish any treatment and disposal system or an extension or addition thereto
36. The applicant shall install a separate meter showing the consumption of energy for operation of domestic and industrial effluent treatment plants and air pollution control system. A register showing consumption of chemicals used for treatment shall be maintained.
37. The applicant shall bring minimum 33% of the available open land under green coverage/ plantation. The applicant shall submit a yearly statement by 30th September every year on available open plot area, number of trees surviving as on 31st March of the year and number of trees planted by September end.
38. The Board reserves its rights to review plans, specifications or other data relating to plant setup for the treatment of waterworks for the purification thereof & the system for the disposal of sewage or trade effluent or in connection with the grant of any consent conditions.

39. The firm shall submit to this office, the 30th day of September every year, the Environment Statement Report for the financial year ending 31st March in the prescribed FORM-V as per the provisions of Rule 14 of the Environment (Protection) (second Amendment) Rules, 1992.
40. You should monitor effluent quality, stack emissions and ambient air quality monthly/quarterly. You shall conduct Dioxin Furan monitoring by third party NABL Accredited agency once in every year and submit report to Sub Regional Officer.
41. The Board reserves its rights to vary all or any of the condition in the consent, if due to any technological improvement or otherwise such variation (including the change of any control equipment, other in whole or in part is necessary).
42. The applicant shall provide facility for collection of environmental samples and samples of trade and sewage effluents, air emissions and hazardous waste to the Board staff at the terminal or designated points and shall pay to the Board for the services rendered in this behalf.
43. You shall obtain necessary prior permission for providing additional control equipment with necessary specifications and operation thereof or alteration or shall ensure replacement of pollution control system or its parts after expiry of its expected life as defined by manufacturer so as to ensure the compliance of standards and safety of the operation thereof.
