

**180th Meeting of State Level Expert Appraisal Committee - 1 (SEAC-1) (Day - 2)****SEAC Meeting number: 180 Meeting Date March 3, 2020****Subject:** Environment Clearance for Environment Clearance for: Existing Existing API Manufacturing Plant and R&D at Plot No. A - 2, MIDC Patalganga, Khalapur, District Raigad, Maharashtra by M/s. Cipla Limited**Is a Violation Case:** Yes

1.Name of Project	Environmental Clearance for Existing Existing API Manufacturing Plant and R&D at Plot No. A - 2, MIDC Patalganga, Khalapur, District Raigad, Maharashtra by M/s. Cipla Limited
2.Type of institution	TOR
3.Name of Project Proponent	Cipla Limited
4.Name of Consultant	Kadam Environmental Consultants, Vadodara, Gujarat
5.Type of project	NA
6.New project/expansion in existing project/modernization/diversification in existing project	Violation Case
7.If expansion/diversification, whether environmental clearance has been obtained for existing project	NO
8.Location of the project	Plot No. A - 2, MIDC Patalganga
9.Taluka	Khalapur
10.Village	Patalganga
Correspondence Name:	Mr. Sanjay Mhaske
Room Number:	Plot No. A - 2, MIDC Patalganga
Floor:	NA
Building Name:	Cipla Limited
Road/Street Name:	MIDC Patalganga
Locality:	Khalapur
City:	MIDC Patalganga
11.Whether in Corporation / Municipal / other area	MIDC Patalganga
12.IOD/IOA/Concession/Plan Approval Number	Plot allotment letter received from MIDC IOD/IOA/Concession/Plan Approval Number: NA Approved Built-up Area: 48502
13.Note on the initiated work (If applicable)	NA
14.LOI / NOC / IOD from MHADA/ Other approvals (If applicable)	NA
15.Total Plot Area (sq. m.)	Industrial Plot Area: 48502 m2
16.Deductions	NA
17.Net Plot area	NA
18 (a).Proposed Built-up Area (FSI & Non-FSI)	a) FSI area (sq. m.): NA b) Non FSI area (sq. m.): NA c) Total BUA area (sq. m.): 48502
18 (b).Approved Built up area as per DCR	Approved FSI area (sq. m.): NA Approved Non FSI area (sq. m.): NA Date of Approval: 22-03-1993
19.Total ground coverage (m2)	NA
20.Ground-coverage Percentage (%) (Note: Percentage of plot not open to sky)	NA
21.Estimated cost of the project	2212700000

**22.Number of buildings & its configuration****Abhay Pimparkar (Secretary SEAC-I)****SEAC Meeting No: 180 Meeting Date: March 3, 2020****Page 1 of 57****Dr. Umakant Dangat (Chairman SEAC-I)**

Serial number	Building Name & number	Number of floors	Height of the building (Mtrs)	
1	NA	NA	NA	
23.Number of tenants and shops	NA			
24.Number of expected residents / users	NA			
25.Tenant density per hectare	NA			
26.Height of the building(s)				
27.Right of way (Width of the road from the nearest fire station to the proposed building(s))	NA			
28.Turning radius for easy access of fire tender movement from all around the building excluding the width for the plantation	NA			
29.Existing structure (s) if any	NA			
30.Details of the demolition with disposal (If applicable)	NA			
<b>31.Production Details</b>				
Serial Number	Product	Existing (MT/M)	Proposed (MT/M)	Total (MT/M)

PP submitted application under violation category as per Notification issued by MoEF&CC dated 08.03.2018.

PP presented the proposal for ToR as per standard ToR issued by MoEF&CC in April 2015 and Notification issued on 08.03.2018 in 154th meeting of SEAC-1 held on 30.08.2018 wherein ToR was granted to the PP along with following additional ToR points.

1. PP to submit certificate of incorporation of the company, list of directors and memorandum of articles.
2. PP to submit lay out plan showing internal roads with six meter width and nine meter turning radius, location of pollution control equipment, parking areas, 33% green belt with its dimensions, rain water harvesting structures (locations with dimensions), storm water drain lines, along with index and area statement showing calculations for each area and cross sections of storm water drain and rain water harvesting pits etc.
3. PP to carry out life cycle analysis of the activities carried out on site with respect to the sustainability index, green house and ozone depletion potential etc
4. PP to submit project site details (location, top sheet of the study area of 10 km., coordinates, Google map, layout map, land use, geological features and geo hydrological status of the study area, drainage pattern etc.)
5. PP to submit details of Forest and Wild Life ecosensitive zones if any in the study area and within the range of 5 km.
6. Land use of the study area delineating forest area, agricultural land, grazing land, wild life sanctuary, national parks, migratory routes of fauna, water bodies, human settlement and other ecological features to be indicated in the report
7. PP to submit details of likely impact of the proposed project and work carried out without obtaining prior Environment Clearance on the environmental parameters (ambient air, surface and ground water, land, flora and fauna, ambient noise, climate change and socio economic etc.)
8. PP to assess ecological damage with respect to the air, water, land and other environmental attributes. The collection and analysis of data shall be done by an Environmental Laboratory accredited by NABL or a laboratory of a council of Scientific and Industrial Research (CSIR) Institution working in the field of Environment.
9. PP to prepare an EMP comprising remediation plan and natural and community resource augmentation plan corresponding to the ecological damage assessed and economic benefits derived due to violation
10. The remediation plan and the natural and community resource augmentation plan to be prepared as an independent chapter in the EIA report by the accredited consultant.
11. PP to include detailed material balance charts for each product showing consumption of raw material, sources of pollution and mitigation measures to control the pollution and justified use of resources along with quantities in the EIA report.
12. PP to carry out HAZOP and QRA and submit Disaster Management Plan
13. PP to provide new and renewable energy sources for the illumination of the office building and street lights.

Now PP submitted EIA/EMP report for appraisal.

## DECISION OF SEAC

**Abhay Pimparkar (Secretary  
SEAC-I)**

**SEAC Meeting No: 180 Meeting Date: March 3,  
2020**

**Page 16  
of 57**

Signature:

Name: Dr. Umakant Dangat

**Dr. Umakant Dangat  
(Chairman SEAC-I)**

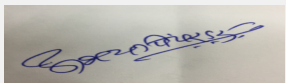

After detailed deliberations with the PP and their accredited consultant, SEAC-1 decided to defer the proposal till submission of compliance of following points.

**Specific Conditions by SEAC:**

- 1) PP to submit lay out plan showing internal roads with six meter width and nine meter turning radius, location of pollution control equipment, parking areas, 33% green belt with its dimensions, rain water harvesting structures (locations with dimensions ), storm water drain lines, along with index and area statement showing calculations for each area and cross sections of storm water drain and rain water harvesting pits etc.
- 2) PP to submit contour plan of the site showing internal road network and storm water drain network along with drain calculations.
- 3) PP to carry out life cycle analysis of the activities carried out on site with respect to the sustainability index, green house and ozone depletion potential etc and submit proposed mitigation measures to reduce the identified potentials.
- 4) PP to submit their plan to undertake Patalganga River Rejuvenation plan from their CER funds (Rs. 3.31 Cr.) in consultation with the District Authority.
- 5) PP to submit revised specific remediation plan and natural and community augmentation plan along with its costs.

**FINAL RECOMMENDATION**

SEAC-I decided to defer the proposal. Kindly find SEAC decision above.

**180th Meeting of State Level Expert Appraisal Committee - 1 (SEAC-1) (Day - 2)****SEAC Meeting number: 180 Meeting Date March 3, 2020****Subject:** Environment Clearance for Environment Clearance for: Existing Formulation & API Manufacturing Plant at Plot No. A - 42, MIDC Patalganga, Khalapur, District Raigad, Maharashtra by M/s. Cipla Limited**Is a Violation Case:** Yes

1.Name of Project	Environmental Clearance for Existing Formulation & API Manufacturing Plant at Plot No. A - 42, MIDC Patalganga, Khalapur, District Raigad, Maharashtra by M/s. Cipla Limited
2.Type of institution	TOR
3.Name of Project Proponent	Cipla Limited
4.Name of Consultant	Kadam Environmental Consultants, Vadodara, Gujarat
5.Type of project	NA
6.New project/expansion in existing project/modernization/diversification in existing project	Violation Case
7.If expansion/diversification, whether environmental clearance has been obtained for existing project	No
8.Location of the project	Plot No. A - 42, MIDC Patalganga
9.Taluka	Khalapur
10.Village	Patalganga
Correspondence Name:	Mr. Sanjay Mhaske
Room Number:	Plot No. A - 42, MIDC Patalganga
Floor:	NA
Building Name:	Cipla Limited
Road/Street Name:	MIDC Patalganga
Locality:	Khalapur
City:	MIDC Patalganga
11.Whether in Corporation / Municipal / other area	MIDC Patalganga
12.IOD/IOA/Concession/Plan Approval Number	Plot allotment letter received from MIDC IOD/IOA/Concession/Plan Approval Number: NA Approved Built-up Area: 34505
13.Note on the initiated work (If applicable)	NA
14.LOI / NOC / IOD from MHADA/ Other approvals (If applicable)	NA
15.Total Plot Area (sq. m.)	Industrial Plot Area: 34505 m <sup>2</sup>
16.Deductions	NA
17.Net Plot area	NA
18 (a).Proposed Built-up Area (FSI & Non-FSI)	a) FSI area (sq. m.): NA b) Non FSI area (sq. m.): NA c) Total BUA area (sq. m.): 34505
18 (b).Approved Built up area as per DCR	Approved FSI area (sq. m.): NA Approved Non FSI area (sq. m.): NA Date of Approval: 28-03-2001
19.Total ground coverage (m <sup>2</sup> )	NA
20.Ground-coverage Percentage (%) (Note: Percentage of plot not open to sky)	NA
21.Estimated cost of the project	2807300000

**22.Number of buildings & its configuration**

**Abhay Pimparkar (Secretary SEAC-I)**

**SEAC Meeting No: 180 Meeting Date: March 3, 2020**

**Page 27 of 57**

**Dr. Umakant Dangat (Chairman SEAC-I)**

PP submitted application under violation category as per Notification issued by MoEF&CC dated 08.03.2018.

PP presented the proposal for ToR as per standard ToR issued by MoEF&CC in April 2015 and Notification issued on 08.03.2018 in 154th meeting of SEAC-1 held on 30.08.2018 wherein ToR was granted to the PP along with following additional ToR points.

1. PP to submit certificate of incorporation of the company, list of directors and memorandum of articles.
2. PP to submit lay out plan showing internal roads with six meter width and nine meter turning radius, location of pollution control equipment, parking areas, 33% green belt with its dimensions, rain water harvesting structures (locations with dimensions), storm water drain lines, along with index and area statement showing calculations for each area and cross sections of storm water drain and rain water harvesting pits etc.
3. PP to carry out life cycle analysis of the activities carried out on site with respect to the sustainability index, green house and ozone depletion potential etc
4. PP to submit project site details (location, top sheet of the study area of 10 km., coordinates, Google map, layout map, land use, geological features and geo hydrological status of the study area, drainage pattern etc.)
5. PP to submit details of Forest and Wild Life ecosensitive zones if any in the study area and within the range of 5 km.
6. Land use of the study area delineating forest area, agricultural land, grazing land, wild life sanctuary, national parks, migratory routes of fauna, water bodies, human settlement and other ecological features to be indicated in the report
7. PP to submit details of likely impact of the proposed project and work carried out without obtaining prior Environment Clearance on the environmental parameters (ambient air, surface and ground water, land, flora and fauna, ambient noise, climate change and socio economic etc.)
8. PP to assess ecological damage with respect to the air, water, land and other environmental attributes. The collection and analysis of data shall be done by an Environmental Laboratory accredited by NABL or a laboratory of a council of Scientific and Industrial Research (CSIR) Institution working in the field of Environment.
9. PP to prepare an EMP comprising remediation plan and natural and community resource augmentation plan corresponding to the ecological damage assessed and economic benefits derived due to violation
10. The remediation plan and the natural and community resource augmentation plan to be prepared as an independent chapter in the EIA report by the accredited consultant.
11. PP to include detailed material balance charts for each product showing consumption of raw material, sources of pollution and mitigation measures to control the pollution and justified use of resources along with quantities in the EIA report.
12. PP to carry out HAZOP and QRA and submit Disaster Management Plan
13. PP to provide new and renewable energy sources for the illumination of the office building and street lights.

Now PP submitted EIA/EMP report for appraisal.

## DECISION OF SEAC

**Abhay Pimparkar (Secretary  
SEAC-I)**

**SEAC Meeting No: 180 Meeting Date: March 3,  
2020**

**Page 28  
of 57**

Signature:

Name: Dr. Umakant Dangat

**Dr. Umakant Dangat  
(Chairman SEAC-I)**

During deliberations, PP requested to postpone the case.

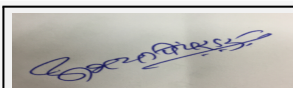

Hence, deferred.

**Specific Conditions by SEAC:**

- 1) PP to submit certificate of incorporation of the company, list of directors and memorandum of articles.
- 2) PP to submit lay out plan showing internal roads with six meter width and nine meter turning radius, location of pollution control equipment, parking areas, 33% green belt with its dimensions, rain water harvesting structures (locations with dimensions ), storm water drain lines, along with index and area statement showing calculations for each area and cross sections of storm water drain and rain water harvesting pits etc.
- 3) PP to carry out life cycle analysis of the activities carried out on site with respect to the sustainability index, green house and ozone depletion potential etc
- 4) PP to submit project site details (location, top sheet of the study area of 10 km., coordinates, Google map, layout map, land use, geological features and geo hydrological status of the study area, drainage pattern etc.)
- 5) PP to submit details of Forest and Wild Life ecosensitive zones if nay in the study area and within the range of 5 km
- 6) Land use of the study area delineating forest area, agricultural land, grazing land, wild life sanctuary, national parks, migratory routes of fauna, water bodies, human settlement and other ecological features to be indicated in the report.
- 7) PP to submit details of likely impact of the proposed project and work carried out without obtaining prior Environment Clearance on the environmental parameters (ambient air, surface and ground water, land, flora and fauna, ambient noise, climate change and socio economic etc.)
- 8) PP to assess ecological damage with respect to the air, water, land and other environmental attributes. The collection and analysis of data shall be done by an Environmental Laboratory accredited by NABL or a laboratory of a council of Scientific and Industrial Research (CSIR) Institution working in the field of Environment.
- 9) PP to prepare an EMP comprising remediation plan and natural and community resource augmentation plan corresponding to the ecological damage assessed and economic benefits derived due to violation.
- 10) The remediation plan and the natural and community resource augmentation plan to be prepared as an independent chapter in the EIA report by the accredited consultant.
- 11) PP to include detailed material balance charts for each product showing consumption of raw material, sources of pollution and mitigation measures to control the pollution and justified use of resources along with quantities in the EIA report.
- 12) PP to carry out HAZOP and QRA and submit Disaster Management Plan.
- 13) PP to provide new and renewable energy sources for the illumination of the office building and street lights

**FINAL RECOMMENDATION**

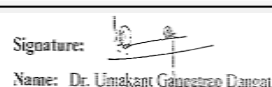

SEAC-I decided to defer the proposal. Kindly find SEAC decision above.

**Page 40 of 57**

**Dr. Umakant Dangat (Chairman SEAC-I)**

PP submitted application under violation category as per Notification issued by MoEF&CC dated 08.03.2018.

PP presented the proposal for ToR as per standard ToR issued by MoEF&CC in April 2015 and Notification issued on 08.03.2018 in 154th meeting of SEAC-1 held on 30.08.2018 wherein ToR was granted to the PP along with following additional ToR points.

1. PP to submit certificate of incorporation of the company, list of directors and memorandum of articles.
2. PP to submit lay out plan showing internal roads with six meter width and nine meter turning radius, location of pollution control equipment, parking areas, 33% green belt with its dimensions, rain water harvesting structures (locations with dimensions), storm water drain lines, along with index and area statement showing calculations for each area and cross sections of storm water drain and rain water harvesting pits etc.
3. PP to carry out life cycle analysis of the activities carried out on site with respect to the sustainability index, green house and ozone depletion potential etc
4. PP to submit project site details (location, top sheet of the study area of 10 km., coordinates, Google map, layout map, land use, geological features and geo hydrological status of the study area, drainage pattern etc.)
5. PP to submit details of Forest and Wild Life ecosensitive zones if any in the study area and within the range of 5 km.
6. Land use of the study area delineating forest area, agricultural land, grazing land, wild life sanctuary, national parks, migratory routes of fauna, water bodies, human settlement and other ecological features to be indicated in the report
7. PP to submit details of likely impact of the proposed project and work carried out without obtaining prior Environment Clearance on the environmental parameters (ambient air, surface and ground water, land, flora and fauna, ambient noise, climate change and socio economic etc.)
8. PP to assess ecological damage with respect to the air, water, land and other environmental attributes. The collection and analysis of data shall be done by an Environmental Laboratory accredited by NABL or a laboratory of a council of Scientific and Industrial Research (CSIR) Institution working in the field of Environment.
9. PP to prepare an EMP comprising remediation plan and natural and community resource augmentation plan corresponding to the ecological damage assessed and economic benefits derived due to violation
10. The remediation plan and the natural and community resource augmentation plan to be prepared as an independent chapter in the EIA report by the accredited consultant.
11. PP to include detailed material balance charts for each product showing consumption of raw material, sources of pollution and mitigation measures to control the pollution and justified use of resources along with quantities in the EIA report.
12. PP to carry out HAZOP and QRA and submit Disaster Management Plan
13. PP to provide new and renewable energy sources for the illumination of the office building and street lights.

Now PP submitted EIA/EMP report for appraisal.

## DECISION OF SEAC

**Abhay Pimparkar (Secretary  
SEAC-I)**

**SEAC Meeting No: 180 Meeting Date: March 3,  
2020**

**Page 41  
of 57**

Signature:

Name: Dr. Umakant Dangat

**Dr. Umakant Dangat  
(Chairman SEAC-I)**

During deliberations, PP requested to postpone the case.

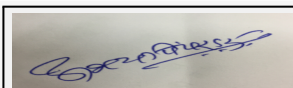

Hence. deferred.

**Specific Conditions by SEAC:**

- 1) PP to submit certificate of incorporation of the company, list of directors and memorandum of articles.
- 2) PP to submit lay out plan showing internal roads with six meter width and nine meter turning radius, location of pollution control equipment, parking areas, 33% green belt with its dimensions, rain water harvesting structures (locations with dimensions ), storm water drain lines, along with index and area statement showing calculations for each area and cross sections of storm water drain and rain water harvesting pits etc.
- 3) PP to carry out life cycle analysis of the activities carried out on site with respect to the sustainability index, green house and ozone depletion potential etc.
- 4) PP to submit project site details (location, top sheet of the study area of 10 km., coordinates, Google map, layout map, land use, geological features and geo hydrological status of the study area, drainage pattern etc.)
- 5) PP to submit details of Forest and Wild Life ecosensitive zones if nay in the study area and within the range of 5 km.
- 6) Land use of the study area delineating forest area, agricultural land, grazing land, wild life sanctuary, national parks, migratory routes of fauna, water bodies, human settlement and other ecological features to be indicated in the report.
- 7) PP to submit details of likely impact of the proposed project and work carried out without obtaining prior Environment Clearance on the environmental parameters (ambient air, surface and ground water, land, flora and fauna, ambient noise, climate change and socio economic etc.)
- 8) PP to assess ecological damage with respect to the air, water, land and other environmental attributes. The collection and analysis of data shall be done by an Environmental Laboratory accredited by NABL or a laboratory of a council of Scientific and Industrial Research (CSIR) Institution working in the field of Environment.
- 9) PP to prepare an EMP comprising remediation plan and natural and community resource augmentation plan corresponding to the ecological damage assessed and economic benefits derived due to violation.
- 10) The remediation plan and the natural and community resource augmentation plan to be prepared as an independent chapter in the EIA report by the accredited consultant.
- 11) PP to include detailed material balance charts for each product showing consumption of raw material, sources of pollution and mitigation measures to control the pollution and justified use of resources along with quantities in the EIA report.
- 12) PP to carry out HAZOP and QRA and submit Disaster Management Plan.
- 13) PP to provide new and renewable energy sources for the illumination of the office building and street lights.

**FINAL RECOMMENDATION**

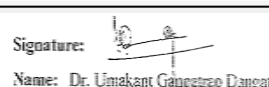

SEAC-I decided to defer the proposal. Kindly find SEAC decision above.

### 37. Effluent Characteristics

Serial Number	Parameters	Unit	Inlet Effluent Characteristics	Outlet Effluent Characteristics	Effluent discharge standards (MPCB)
1	pH	--	1.16	7.10	5.5 - 9
2	SS	mg/l	5,228.0	BDL	100.0
3	TDS	mg/l	2,96,058.0	165.30	2100.0
4	BOD (27 degree C)	mg/l	9,710.0	27.0	30.0
5	COD	mg/l	28,800.0	125.0	250.0
Amount of effluent generation (CMD):		206.48			
Capacity of the ETP:		ETP - 200 CMD, MEE - 200 CMD & R.O - 230 CMD			
Amount of treated effluent recycled :		Recycled effluent - 171.15 (R.O Permeate), Boiler condensate recovery - 144.0 CMD			
Amount of water sent to the CETP:		Existing permitted quantity of treated effluent is sent to CETP, after expansion activity the unit will be ZLD unit wherein total treated effluent will be completely recycled.			
Membership of CETP (if require):		HOPL is having membership of Kurkumbh CETP.			
Note on ETP technology to be used		1) HCOD-HTDS effluent from manufacturing process, scrubber blow down & R.O reject will be subjected to MEE. 2) LCOD- LTDS effluent comprising of boiler, cooling tower blow downs & domestic sewage will be subjected full-fledged ETP comprising of primary, secondary & tertiary treatment scheme followed by R.O			
Disposal of the ETP sludge		Maharashtra Enviro Power Ltd. - CHWTSDF, Ranjangaon.			

### 38. Hazardous Waste Details

Serial Number	Description	Cat	UOM	Existing	Proposed	Total	Method of Disposal
1	MEE Salt	37.3	T/M	--	100.0	100.0	CHWTSDF, Ranjangaon
2	ETP Sludge	35.3	T/M	0.25	17.75	18.0	CHWTSDF, Ranjangaon
3	Packing waste material	33.1	T/M	0.1	0.4	0.5	CHWTSDF, Ranjangaon

7	D.G - 500 kVA	High Speed Diesel - 50 l/hr.	7	4.5	0.45	185 oC

40.Details of Fuel to be used				
Serial Number	Type of Fuel	Existing	Proposed	Total
1	Coal	19.0 MT/D	56.0 MT/D	75.0 MT/D
2	High Speed Diesel	20.0 l/hr.	200.0 l/hr.	200.0 l/hr.
41.Source of Fuel		Local vendor		
42.Mode of Transportation of fuel to site		By Road		

<b>43.Green Belt Development</b>	Total RG area :	7987.35 m2
	No of trees to be cut :	--
	Number of trees to be planted :	603
	List of proposed native trees :	Heterophragma quadriloculare, Oroxylum indicum, Nerium oleander, Schleicheria oleosa, Terminalia elliptica, Terminalia paniculata, Alstonia scholaris, Butea monosperma, Erythrina variegata, Cassia fistula, Helicteres isora, Tabernaemontana alternifolia, Macaranga peltata, Azadirachta indica, Bridelia retusa, Bombax ceiba, Pterospermum acerifolium, Cordia dichotoma, Neolamarckia cadamba, Firmiana colorata, Millingtonia hortensis .
	Timeline for completion of plantation :	Within 1 year from grant of EC.

44.Number and list of trees species to be planted in the ground				
Serial Number	Name of the plant	Common Name	Quantity	Characteristics & ecological importance
1	Heterophragma quadriloculare	Waras	29	A native tree with large leaf area which helps in dust settling
2	Oroxylum indicum	Tetu	29	A native ornamental tree
3	Nerium oleander	Kaner	29	A native drought resistant hardy species, with fragrant flowers

 <b>Abhay Pimparkar (Secretary SEAC-I)</b>	<b>SEAC Meeting No: 180 Meeting Date: March 3, 2020</b>	<b>Page 49 of 57</b>	Signature:  Name: Dr. Umakant Dangat <b>Dr. Umakant Dangat (Chairman SEAC-I)</b>
--	---	----------------------	---

4	Schleichera oleosa	Kusum	29	A native tree found in abundance in Sahyadris
5	Terminalia elliptica	Ain	29	A native evergreen broad leaved tree common in the Sahyadris
6	Terminalia paniculata	Kinjal	29	A native tree having large distribution in Sahyadris
7	Alstonia scholaris	Saptaparni	29	A native evergreen tree having high dust settling index
8	Butea monosperma	Palash	29	A native brilliantly flowering tree fairly common and abundant across the Pune District
9	Erythrina variegata	Panghara	29	A highly valued native ornamental tree
10	Cassia fistula	Bahava	29	A native ornamental tree with excellent bloom
11	Helicteres isora	Murudsheng	29	A native shrub extensively found in the tracts & plains of sahyadri used as roost plant by variety of birds
12	Tabernaemontana alternifolia	Naagkuda	29	A native flowering tree
13	Macaranga peltata	Chandwar	29	A native tree found in abundance across the Sahyadri range
14	Azadirachta indica	Neem	29	A native evergreen tree known for plantation in polluted area
15	Bridelia retusa	Asana	29	Native evergreen tree
16	Bombax ceiba	Sawar	29	Native ornamental tree
17	Pterospermum acerifolium	Muchkund	29	A native evergreen tree used for ornamental plantations
18	Cordia dichotoma	Shelu	29	Native deciduous tree
19	Neolamarckia cadamba	Kadamba	29	A native evergreen tree with thick canopy
20	Firmiana colorata	Kaushi	29	Brilliantly blooming native tree
21	Millingtonia hortensis	Kaval nimb	23	Brilliantly blooming native tree
45.Total quantity of plants on ground				
46.Number and list of shrubs and bushes species to be planted in the podium RG:				
Serial Number	Name	C/C Distance	Area m2	
1	NA	NA	NA	
47.Energy				

<b>Power requirement:</b>	Source of power supply :	MSEDCL
	During Construction Phase: (Demand Load)	NA
	DG set as Power back-up during construction phase	NA
	During Operation phase (Connected load):	2550 kW
	During Operation phase (Demand load):	2450 kVA
	Transformer:	300 kVA
	DG set as Power back-up during operation phase:	500 kVA x 4 Nos.
	Fuel used:	HSD
	Details of high tension line passing through the plot if any:	NA
<b>48. Energy saving by non-conventional method:</b>		
Energy saving will be achieved by installing solar lights within project premises.		
<b>49. Detail calculations &amp; % of saving:</b>		
Serial Number	Energy Conservation Measures	Saving %
1	Solar street lights	47 Nos.
<b>50. Details of pollution control Systems</b>		
Source	Existing pollution control system	Proposed to be installed
Waste water generated from industrial activities	ETP of 10 CMD along with MEE 24 CMD & Sewage passed through Septic Tank and taken to ETP	Up gradation of ETP to 200 CMD capacity & MEE to 200 CMD capacity & installation of R.O of 230 CMD capacity
Manufacturing process	--	Installation of process scrubber of 2000 CFM capacity
Existing 1.5 & 4.5 TPH Steam Boilers	Common stack of 32.5 m height	Stack of 32.5 m height for 4.5 TPH Steam Boiler. Note: Existing steam boiler of 1.5 will be sold out
Proposed 10 TPH Steam Boiler	--	New stack of 40.0 m height
D.G - 250 kVA	Stack of 3.5 height	This D. G will be sold out
D.G - 500 kVA	--	Stack of 4.5 m height
D.G - 500 kVA	--	Stack of 4.5 m height
D.G - 500 kVA	--	Stack of 4.5 m height
D.G - 500 kVA	--	Stack of 4.5 m height
<b>Budgetary allocation (Capital cost and O&amp;M cost):</b>	Capital cost:	Rs. 6.5 Lakh
	O & M cost:	Rs. 0.3 Lakh/Annum

## 51.Environmental Management plan Budgetary Allocation

### a) Construction phase (with Break-up):

Serial Number	Attributes	Parameter	Total Cost per annum (Rs. In Lacs)
1	Air	Particulate matter (Dust Suppression measures)	1.5 (Up to construction phase)
2	Noise	PPE's (Ear plugs)	0.25 (Up to construction phase)
3	Waste management	Inert waste materials (Dedicate storage provision)	0.25 (Up to construction phase)

### b) Operation Phase (with Break-up):

Serial Number	Component	Description	Capital cost Rs. In Lacs	Operational and Maintenance cost (Rs. in Lacs/yr)
1	Air	Installation of 1 No. process scrubber of 2000 CFM capacity, Provision of new stack of 40 m & Cyclone Dust Collector and Bag Filter for proposed steam boiler of 10 TPH	70.0	10.0
2	Water	Up gradation of ETP to 200 CMD capacity & MEE to 200 CMD capacity & installation of R.O of 230 CMD capacity	350.0	30.45
3	Noise	Installation of anti-vibration pads for machineries, & Construction of enclosures for D.G's & Steam Boilers	10.0	0.5
4	Solid Waste Management	Purchase of additional containers/bags for storage of solid waste, concrete paving of hazardous waste storage area	2.5	0.75
5	Environment Monitoring	Periodic moitoring of various environmental components & parameters	--	10.0
6	Rain Water Harvesting System	Installation of RWH system & annual cleaning and maintenance of RWH tank	7.5	0.75
7	Energy Conservation	Installation of solar lights within project premises	6.5	0.3
8	Green Belt	Development & maintenance of green belt	5.5	2.77920

**Abhay Pimparkar (Secretary SEAC-I)**

**SEAC Meeting No: 180 Meeting Date: March 3, 2020**

**Page 52 of 57**

**Dr. Umakant Dangat (Chairman SEAC-I)**

9	Occupational Health	Purchase of PPE's for additional man power & annual health checkup of workers	6.0	1.5
---	---------------------	---	-----	-----

### 51.Storage of chemicals (inflammable/explosive/hazardous/toxic substances)

Description	Status	Location	Storage Capacity in MT	Maximum Quantity of Storage at any point of time in MT	Consumption / Month in MT	Source of Supply	Means of transportation
Styrene	Liquid	UG storage tank (PESO area)	100.0	100.0	1200.0	Import via. Kandla & JNPT	Road Tanker
Hydrogen peroxide (50%)	Liquid	AG tank (Tank farm)	100.0	100.0	860.0	Domestic	Road Tanker
Sodium Hydroxide (50%)	Liquid	AG tank (Tank farm)	100.0	100.0	900.0	Domestic	Road Tanker
Hydrochloric acid	Liquid	AG tank (Tank farm)	100.0	100.0	1400.0	Domestic	Road Tanker
Hydrogen gas	Gas	Hydrogen Bank	30 T generation capacity	4000 m3 hydrogen cylinder bank 3 nos.	25.0	In house generation	--
Sodium bicarbonate	Solid/ Powder	RM Store	50 kg/bag (100 bags)	5.0	20.0	Domestic	Road Truck
NaOH flakes	Solid	RM Store	50 kg/Bag (100 bags)	5.0	10.0	Domestic	Road Truck
Methanol	Liquid	UG storage tank (PESO area)	25.0	25.0	300.0	Imports	Road Tanker
Acetaldehyde	Liquid	AG tank (Tank farm)	30.0	60.0	365.0	Domestic	Road Tanker
Methyl Ethyl Ketone	Liquid	UG storage tank (PESO area)	50.0	50.0	175.0	Domestic	Road Tanker
Sulfuric Acid (98%)	Liquid	AG tank (Tank farm)	12.0	12.0	55.0	Domestic	Road Tanker
Sodium Carbonate	Solid	RM store	50 kg HDPE bag (400 bags)	20.0	30.0	Domestic	Road Tanker
Acetaldol	Liquid	AG tank (Tank farm)	40.0	30.0	120.0	Domestic	Road Tanker
Benzaldehyde	Liquid	AG tank (Tank farm)	80 KL (2 tanks of 40 KL)	80.0	650	Domestic	Road Tanker
Toluene	Liquid	RM Store	10.0	10.0	10.0	Imports	Road Tanker
Acetophenone	Liquid	AG tank (Tank farm)	10.0	10.0	50.0	Domestic	Road Tanker

SEAC DISCUSSION ON ENVIRONMENTAL ASPECTS		
Environmental Impacts of the project	PP submitted EIA report to the committee. Various aspects of the Environment are discussed in the report. PP has conducted base line data collection for Air, Water, Soil & Noise parameters as per EIA Notification, 2006 amended from time to time. As per data submitted by the PP in the EIA report environmental parameters are found within the prescribed limits at site.	
Water Budget	PP submitted water budget calculations in the EIA report and also indicated water requirement at Sr. No 33 of the Consolidated Statement.	
Waste Water Treatment	PP proposes 100% Zero Liquid Discharge Effluent Treatment Plant.	
Drainage pattern of the project	PP considered contour levels during design of storm water drains.	
Ground water parameters	As per data submitted by PP ground water parameters are within the prescribed limits.	
Solid Waste Management	PP committed to dispose the hazardous waste at Common Hazardous Waste Treatment, Storage, and Disposal Facility and sale to Authorized vendors. Details are given at Sr. No. 38 of the Consolidated Statement.	
Air Quality & Noise Level issues	As per data submitted by PP Air Quality and Noise parameters are within the prescribed limits at project site.	
Energy Management	The electrical demand for project is 2450 KVA which will be supplied by MSEDCL. PP proposes four numbers of DG sets with capacity 500 KVA	
Traffic circulation system and risk assessment	PP proposes internal roads with minimum six meter width and nine meters of turning radius for smooth circulation of traffic.	
Landscape Plan	PP provided 33% green belt within the premises.	
Disaster management system and risk assessment	PP carried out HAZOP and Risk Assessment and submitted DMP.	
Socioeconomic impact assessment	PP has carried out socio economic impact study and included in the EIA report.	
Environmental Management Plan	PP proposes Rs. 2.00 Lakhs during construction phase and Rs. 458.00 Lakhs as capital cost and Rs. 56.50 Lakhs as recurring EMP cost for the maintenance of environmental parameters during operation phase.	
Any other issues related to environmental sustainability	Not Applicable	
Brief information of the project by SEAC

PP submitted their application for the grant of TOR under category 5(f)B1 as per EIA Notification, 2006 for the expansion of their existing manufacturing plant. PP presented draft TOR based on standard TOR issued by MoEF & CC published in April, 2015 in the 163rd meeting of SEAC-1 held on 13.03.2019 wherein ToR was grnated to the PP with following additional points.

1. PP to submit certificate of incorporation of the company, list of board of directors and memorandum of articles.
2. PP to submit lay out plan showing internal roads with six meter width and nine meter turning radius, provision of cul-de-sac at dead ends of the internal roads if any, location of pollution control equipment, parking areas, 33% green belt with its dimensions, rain water harvesting structures (locations with dimensions), storm water drain lines, along with index and area statement showing calculations for each area and cross sections of storm water drain and rain water harvesting pits etc.
3. PP to carry out life cycle analysis of the activities carried out on site with respect to the acidification potential, eutrophication potential, green house and ozone depletion potential etc and proposed mitigation measures to reduce the identified potentials.
4. PP to include detailed material balance charts for each product showing consumption of raw material, sources of pollution and mitigation measures to control the pollution and justified use of resources along with quantities in the EIA report.
5. PP to include detailed water balance calculations along with design details of zero liquid discharge ETP in the EIA report.
6. PP to carry out HAZOP and QRA and submit disaster management plan.
7. PP to submit hazardous chemical handling protocol
8. PP to include details of generation and disposal of hazardous waste including by - products as per Hazardous and other waste (Management and Transboundry Movement) Rules, 2016 in the EIA report.
9. PP to submit details of Indian/international standards with respect to the human health hazards applicable for the prefumary manufacturing and also to submit comparative statement for the quality of proposed products against the Indian/Internation standards.
10. PP to include water and carbon foot print monitoring in the EMP.
11. PP to submit technical note on how proposed expansion will be accommodated in the existing manufacturing plant along with equipment layout, spaces required for storage of raw materials and finished products etc.
12. PP to submit structural stability certificate of existing building with respect to the proposed expansion.
13. PP to use new and renewable energy for illumination of office buildings, street lights, parking areas and maintain the same regularly PP to provide lightening arrestor.
14. PP to prepare the Legal Register with respect to compliance of various Acts , Rules and Regulations applicable to the manufacturing activities.

As the industry is located in the notified industrial area/estate (MIDC), Public Hearing is exempted under the provisions as per para 7 III Stage (3) (b) of the EIA Notification, 2006

The validity of the TOR will be for three years as per OM issued by MoEF and CC on 29.08.2017.

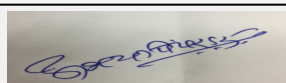

PP to submit Form - 2 along with EIA/EMP report as per OM issued by MoEF&CC on 20.04.2018.

PP to submit their plan to utilize CER (Corporate Environment Responsibility) along with timelines as per OM issued by MoEF&CC dated 01.05.2018.

PP submitted EIA/EMP reports for appraisal in 174th meeting of SEAC- 1 held on 02.01.2020 wherein the proposal was deferred till submission of follwing points.

1. PP to submit revised layout showing green belt area calculations and roads with six meter width and nine meter turning radius.
2. PP to submit legible copy of contour plan.
