

## 174th Meeting of State Level Expert Appraisal Committee (SEAC-1)

**SEAC Meeting number: 174th - Day-2 Meeting Date January 3, 2020**

**Subject:** Environment Clearance for Mining of Mineral (Open cast)

**Is a Violation Case:** No

|  |  |
|--|--|
| 1.Name of Project  | Satuk Manganese Mine   |
| 2.Type of institution  | Government   |
| 3.Name of Project Proponent  | M/s MOIL Limited   |
| 4.Name of Consultant   | Wolkem India Limited ,Udaipur ,Rajasthan   |
| 5.Type of project  | Mining Project   |
| 6.New project/expansion in existing project/modernization/diversification in existing project          | New project  |
| 7.If expansion/diversification, whether environmental clearance has been obtained for existing project | Not applicable   |
| 8.Location of the project  | Topo sheet No 55 O/7   |
| 9.Taluka   | Parseoni   |
| 10.Village   | Satuk  |
| Correspondence Name:   | Mr. Dipanker Shome   |
| Room Number:   | NA   |
| Floor:   | NA   |
| Building Name:   | MOIL Bhawan  |
| Road/Street Name:  | 1-A ,Katol Road,   |
| Locality:  | Katol Road   |
| City:  | Nagpur   |
| 11.Whether in Corporation / Municipal / other area   | Not applicable   |
| 12.IOD/IOA/Concession/Plan Approval Number   | Approved Mining plan with PMCP   |
|  | <b>IOD/IOA/Concession/Plan Approval Number:</b> Mining Plan and Progressive Mining Closure Plan under Rule 16 (1) of MCR, 2016 and Rule 23 B of MCDR 1988 in respect of an area over 5.62 ha in village Satuk is approved by Regional Controller, Nagpur Region, IBM vide letter no. NGP/MN/MPLN-1172/NGP-2016 on dated 9.08.2016. |
|  | <b>Approved Built-up Area:</b>   |
| 13.Note on the initiated work (If applicable)  | Not applicable   |
| 14.LOI / NOC / IOD from MHADA/ Other approvals (If applicable)   | The LOI for Mining Lease has been granted to MOIL over an area of 5.62 ha in village Satuk, Tah.: Parseoni of Dist: Nagpur of Maharashtra State by Government of Maharashtra vide letter number MMN-0216/L. No. 21/Industry-9, Mumbai dated 06.04.2016.  |
| 15.Total Plot Area (sq. m.)  | 5.62 Ha  |
| 16.Deductions  | Not applicable   |
| 17.Net Plot area   | Not applicable   |
| 18 (a).Proposed Built-up Area (FSI & Non-FSI)  | a) FSI area (sq. m.): Not applicable   |
|  | b) Non FSI area (sq. m.): Not applicable   |
|  | c) Total BUA area (sq. m.):  |
| 18 (b).Approved Built up area as per DCR   | Approved FSI area (sq. m.):  |
|  | Approved Non FSI area (sq. m.):  |
|  | Date of Approval:  |
| 19.Total ground coverage (m2)  | Not applicable   |
| 20.Ground-coverage Percentage (%) (Note: Percentage of plot not open to sky)                           | Not applicable   |
| 21.Estimated cost of the project   | 5500000  |

## 22. Number of buildings & its configuration

| Serial number  | Building Name & number | Number of floors | Height of the building (Mtrs) |
|--|------------------------|------------------|-------------------------------|
| 1  | Not applicable         | Not applicable   | Not applicable                |
| 23. Number of tenants and shops  | Not applicable         |                  |                               |
| 24. Number of expected residents / users   | Not applicable         |                  |                               |
| 25. Tenant density per hectare   | Not applicable         |                  |                               |
| 26. Height of the building(s)  |                        |                  |                               |
| 27. Right of way (Width of the road from the nearest fire station to the proposed building(s))                                 | Not applicable         |                  |                               |
| 28. Turning radius for easy access of fire tender movement from all around the building excluding the width for the plantation | Not applicable         |                  |                               |
| 29. Existing structure (s) if any  | Not applicable         |                  |                               |
| 30. Details of the demolition with disposal (If applicable)  | Not applicable         |                  |                               |

## 31. Production Details

| Serial Number | Product       | Existing (MT/M) | Proposed (MT/M) | Total (MT/M)   |
|---------------|---------------|-----------------|-----------------|----------------|
| 1             | Manganese Ore | 0               | 642 (7700 TPA)  | 642 (7700 TPA) |

## 32. Total Water Requirement

**Abhay Pimparkar (Secretary SEAC-I)**

|   |   |   |
|---|---|---|
| <b>34.Rain Water Harvesting (RWH)</b>                                   | <b>Level of the Ground water table:</b>           | Static water level during winter is about 6 mts from ground surface and about 8 mts during summer . |
|   | <b>Size and no of RWH tank(s) and Quantity:</b>   | Proposed  |
|   | <b>Location of the RWH tank(s):</b>               | Proposed  |
|   | <b>Quantity of recharge pits:</b>                 | Proposed  |
|   | <b>Size of recharge pits :</b>                    | 1.29 Ha area will be left for rain water storage  |
|   | <b>Budgetary allocation (Capital cost) :</b>      | -   |
|   | <b>Budgetary allocation (O &amp; M cost) :</b>    | -   |
|   | <b>Details of UGT tanks if any :</b>              | Not applicable  |
| <b>35.Storm water drainage</b>  | <b>Natural water drainage pattern:</b>            | Not applicable  |
|   | <b>Quantity of storm water:</b>                   | Not applicable  |
|   | <b>Size of SWD:</b>                               | Not applicable  |
| <b>Sewage and Waste water</b>   | <b>Sewage generation in KLD:</b>                  | Not applicable  |
|   | <b>STP technology:</b>                            | Not applicable  |
|   | <b>Capacity of STP (CMD):</b>                     | Not applicable  |
|   | <b>Location &amp; area of the STP:</b>            | Not applicable  |
|   | <b>Budgetary allocation (Capital cost):</b>       | Not applicable  |
|   | <b>Budgetary allocation (O &amp; M cost):</b>     | Not applicable  |
| <b>36.Solid waste Management</b>  |   |   |
| <b>Waste generation in the Pre Construction and Construction phase:</b> | <b>Waste generation:</b>                          | 3553 MT Mineral reject as Over burden   |
|   | <b>Disposal of the construction waste debris:</b> | Not applicable  |
| <b>Waste generation in the operation Phase:</b>                         | <b>Dry waste:</b>                                 | Not applicable  |
|   | <b>Wet waste:</b>                                 | Not applicable  |
|   | <b>Hazardous waste:</b>                           | Not applicable  |
|   | <b>Biomedical waste (If applicable):</b>          | Not applicable  |
|   | <b>STP Sludge (Dry sludge):</b>                   | Not applicable  |
|   | <b>Others if any:</b>                             | Not applicable  |

|  |  |   |
|--|--|---|
| <b>Mode of Disposal of waste:</b>                            | <b>Dry waste:</b>  | Over burden will be dumped in the mining lease area |
|  | <b>Wet waste:</b>  | Not applicable                                      |
|  | <b>Hazardous waste:</b>                                    | Not applicable                                      |
|  | <b>Biomedical waste (If applicable):</b>                   | Not applicable                                      |
|  | <b>STP Sludge (Dry sludge):</b>                            | Not applicable                                      |
|  | <b>Others if any:</b>                                      | Not applicable                                      |
| <b>Area requirement:</b>                                     | <b>Location(s):</b>  | Not applicable                                      |
|  | <b>Area for the storage of waste &amp; other material:</b> | Not applicable                                      |
|  | <b>Area for machinery:</b>                                 | Not applicable                                      |
| <b>Budgetary allocation (Capital cost and O&amp;M cost):</b> | <b>Capital cost:</b>                                       | Not applicable                                      |
|  | <b>O &amp; M cost:</b>                                     | Not applicable                                      |

### 37. Effluent Characteristics

| Serial Number                         | Parameters     | Unit           | Inlet Effluent Characteristics | Outlet Effluent Characteristics | Effluent discharge standards (MPCB) |
|---------------------------------------|----------------|----------------|--------------------------------|---------------------------------|-------------------------------------|
| 1                                     | Not applicable | Not applicable | Not applicable                 | Not applicable                  | Not applicable                      |
| Amount of effluent generation (CMD):  |                | Not applicable |                                |                                 |                                     |
| Capacity of the ETP:                  |                | Not applicable |                                |                                 |                                     |
| Amount of treated effluent recycled : |                | Not applicable |                                |                                 |                                     |
| Amount of water send to the CETP:     |                | Not applicable |                                |                                 |                                     |
| Membership of CETP (if require):      |                | Not applicable |                                |                                 |                                     |
| Note on ETP technology to be used     |                | Not applicable |                                |                                 |                                     |
| Disposal of the ETP sludge            |                | Not applicable |                                |                                 |                                     |

### 38. Hazardous Waste Details

| Serial Number | Description    | Cat            | UOM            | Existing       | Proposed       | Total          | Method of Disposal |
|---------------|----------------|----------------|----------------|----------------|----------------|----------------|--------------------|
| 1             | Not applicable | Not applicable | Not applicable | Not applicable | Not applicable | Not applicable | Not applicable     |

### 39. Stacks emission Details

| Serial Number | Section & units | Fuel Used with Quantity | Stack No.      | Height from ground level (m) | Internal diameter (m) | Temp. of Exhaust Gases |
|---------------|-----------------|-------------------------|----------------|------------------------------|-----------------------|------------------------|
| 1             | Not applicable  | Not applicable          | Not applicable | Not applicable               | Not applicable        | Not applicable         |

### 40. Details of Fuel to be used

| Serial Number                              | Type of Fuel | Existing                     | Proposed           | Total              |
|--|--------------|------------------------------|--------------------|--------------------|
| 1  | HSD          | 0                            | As per requirement | As per requirement |
| 41. Source of Fuel                         |              | Provide by Authorized person |                    |                    |
| 42. Mode of Transportation of fuel to site |              | Trucks                       |                    |                    |

MOIL Limited., for a period of 50 years approved by Regional Controller, Nagpur Region, IBM vide letter no. NGP/MN/MPLN-1172/NGP-2016 on dated 9.08.2016.</p> <p>The proposed manganese ore production is 7700 Tonnes (TPA) ROM. The mining is Opencast mining. The region has good deposits of Manganese and has major demand in Steel Industry. The location advantage of the mine makes it possible to dispatch the Manganese in all the directions giving easy accessibility to the market.</p> |

PP submitted their application for the grant of TOR under category 1(a)B1 as per EIA Notification, 2006. PP presented draft TOR based on standard TOR issued by MoEF & CC published in April, 2015 in the 149th meeting of SEAC-1 held on 06.04.2018 where in ToR was granted to the PP for the preparation of EIA/EMP reprot alogn with following additiona conditions,

1. PP to submit certificate of incorporation of the company, list of directors and memorandum of articles and memorandum of association.
2. PP to submit lay out plan showing entry/exit gates, internal roads with minimum width of six meters and turning radius of nine meters, location of storage of over burden and top soil, location of mining pits, approach road to the site etc. PP to obtain permission from competent authority to draw ground water.
3. PP to submit copy of approved mining plan. PP also to submit approved mine closure plan from competent authority
4. PP submit record of rights document for proposed mining area.
5. PP to include safety measures proposed to prevent any unforeseen accident.
6. PP to obtain permission from competent authority for removal of trees if necessary. PP to use transplantation technique instead of cutting the trees.
7. PP to submit contour plan of the mining area and surrounding area.
8. PP to submit Socio Economic survey report and include its recommendations in the EIA reprot.
9. PP to plan CSR in consultation with the District Authority along with implementation schedule. PP to maintain separate account for CSR funds.

Now PP submitted EIA/EMP report for appraisal.

## DECISION OF SEAC

During deliberations, it was observed that, PP was not having adequate and appropriate information to present before the commottee.

In view of above, SEAC-1 decided to defer the proposal till PP is ready with the information.

**Specific Conditions by SEAC:**

## FINAL RECOMMENDATION

SEAC-I decided to defer the proposal. Kindly find SEAC decision above.

## SEAC DISCUSSION ON ENVIRONMENTAL ASPECTS

|   |   |
|---|---|
| <b>Environmental Impacts of the project</b> | PP submitted EIA report to the committee. Various aspects of the Environment are discussed in the report. PP has conducted base line data collection for Air, Water, Soil & Noise parameters as per EIA Notification, 2006 amended from time to time. |
| <b>Water Budget</b>                         | PP submitted water budget calculations in the EIA report and also indicated water requirement at Sr. No 33 of the Consolidated Statement.   |
| <b>Waste Water Treatment</b>                | No waste water generates from the process. PP to provide STP for the treatment of domestic sewage.  |
| <b>Drainage pattern of the project</b>      | PP considered the contour levels while designing the drainage.  |

PP submitted their application for the grant of TOR under category 3(a)B1 as per EIA Notification, 2006. PP presented draft TOR based on standard TOR issued by MoEF & CC published in April, 2015 in 149th meeting of SEAC-1 held on 05.04.2018 wherein ToR was granted to the PP along with following additional points,

Public Hearing was conducted on 04.01.2019.

PP to collect base line data as per Office Memorandum issued by MoEF&CC dated 27.08.2017.

1. PP to submit certificate of incorporation of the company, list of directors and memorandum of articles and memorandum of association.
2. PP to submit lay out plan showing entry/exit gates, internal road of minimum width six meters and turning radius of nine meters, location of all pollution control equipment, solid waste storage areas, parking areas, 33% green belt, rain water harvesting etc.
3. PP to carry out life cycle analysis of the activities proposed on site with respect to the sustainability index, green house and ozone depletion potential, mass energy balance calculation etc.
4. PP to include details of generation of solid waste like slag, ash etc., its storage and disposal mechanism in the EIA report.
5. PP to carry out Risk Assessment and submit Disaster Management Plan.
6. PP to submit details of CSR plan prepared in consultation with district authorities along with its time bound implementation schedule. PP to maintain separate account for CSR funds.
7. PP to obtain permission from competent authority for using ground water.
8. PP to include details of use of non conventional energy in the EIA report.
9. PP to submit detailed calculation for rain water harvesting.
10. PP to provide lightening arrestor.

PP submitted the EIA/EMP reprot for appraisal in 168th meeting of SEAC-1 wherein the proposal was deferred on PP's request.

## DECISION OF SEAC

After detailed deliberations with the PP and their accredited consultant, SEAC-1 decided to recommend the proposal for prior Environmental Clearance subject to the following conditions.

### Specific Conditions by SEAC:

- 1) PP to explore possibility to store scrap and waste slag on other plot so as to create more space for existing activities.
- 2) PP to implement CER plan in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.
- 3) PP to monitor carbon and water foot print on yearly basis and include targets in the Management Plan.
- 4) PP to provide new and renewable energy for illumination of office building , street lights and parking area.

## FINAL RECOMMENDATION

SEAC-I have decided to recommend the proposal to SEIAA for Prior Environmental clearance subject to above conditions

## 174th Meeting of State Level Expert Appraisal Committee (SEAC-1)

**SEAC Meeting number: 174th - Day-2 Meeting Date January 3, 2020**

**Subject:** Environment Clearance for It is proposed to expand the production capacity of M.S. Billets from 23,100 TPA to 1,45,200 TPA; TMT Bars from 60,000 TPA to 1,44,000 TPA; M.S. Pipes from 30,000 TPA to 96,000 TPA

**Is a Violation Case:** No

|  |   |

| 1.Name of Project  | M/s. Diwanka Energy Private Limited   |
| 2.Type of institution  | Private   |
| 3.Name of Project Proponent  | Priyank Diwanka   |
| 4.Name of Consultant   | Pollution And Ecology Control Services  |
| 5.Type of project  | Industry Project  |
| 6.New project/expansion in existing project/modernization/diversification in existing project          | New/Expansion project   |
| 7.If expansion/diversification, whether environmental clearance has been obtained for existing project | Not Applicable  |
| 8.Location of the project  | At Survey no. 149,150,151   |
| 9.Taluka   | Mouda   |
| 10.Village   | Lapka   |
| 11.Whether in Corporation / Municipal / other area   | Lapka Gram Panchayat in Nagpur Metro Region Development Authority   |
| 12.IOD/IOA/Concession/Plan Approval Number   | The layout plan for expansion phase will be approved by Nagpur Metro Region Development Authority. in addition to existing shed of about 4000 sq.m. another shed of about 4000 to 5000 sq.m. will be constructed. |
|  | <b>IOD/IOA/Concession/Plan Approval Number:</b> Not Applicable  |
|  | <b>Approved Built-up Area:</b> 4000   |
| 13.Note on the initiated work (If applicable)  | Not Applicable, work will be initiated after receipt of Environmental Clearance & Consent to Establish  |
| 14.LOI / NOC / IOD from MHADA/ Other approvals (If applicable)   | NA  |
| 15.Total Plot Area (sq. m.)  | 44,400.00 sq mt   |
| 16.Deductions  | In internal road, open space, margin from boundary wall & plantation.   |
| 17.Net Plot area   | Not applicable  |
| 18 (a).Proposed Built-up Area (FSI & Non-FSI)  | a) FSI area (sq. m.): Not applicable  |
|  | b) Non FSI area (sq. m.): Not applicable  |
|  | c) Total BUA area (sq. m.): 4000  |
| 18 (b).Approved Built up area as per DCR   | Approved FSI area (sq. m.):   |
|  | Approved Non FSI area (sq. m.):   |
|  | Date of Approval:   |
| 19.Total ground coverage (m2)  | Not applicable  |
| 20.Ground-coverage Percentage (%) (Note: Percentage of plot not open to sky)                           | Not Applicable  |
| 21.Estimated cost of the project   | 750000000   |

### 22.Number of buildings & its configuration

| Serial number | Building Name & number   | Number of floors | Height of the building (Mtrs) |
|---------------|--------------------------|------------------|-------------------------------|
| 1             | One industrial shed area | 1                | 15 Mtr.                       |

23.Number of tenants and shops: Not applicable

|  |  |
|--|--|
| <b>24.Number of expected residents / users</b>   | About 340-350 no. users including worker & staff after expansion.  |
| <b>25.Tenant density per hectare</b>   | Not applicable   |
| <b>26.Height of the building(s)</b>  |  |
| <b>27.Right of way (Width of the road from the nearest fire station to the proposed building(s))</b>                                 | 10 m approach road form NH-6 (30 m. Wide)  |
| <b>28.Turning radius for easy access of fire tender movement from all around the building excluding the width for the plantation</b> | Possibility will be explored to maintain minimum turning radius of 6 mtr.  |
| <b>29.Existing structure (s) if any</b>  | Existing Industrial shed where Induction Furnace, Rolling Mill and Tube Mill are installed. Proposed expansion will be carried out in existing shed and additional shed by installing additional furnace of 1 x 7 TPH & 2 x 15 TPH and 2 no. of Rolling Mill and 7 no. of Tube Mill. |
| <b>30.Details of the demolition with disposal (If applicable)</b>  | Not applicable   |

### 31.Production Details

| Serial Number | Product       | Existing (MT/M) | Proposed (MT/M) | Total (MT/M) |
|---------------|---------------|-----------------|-----------------|--------------|
| 1             | M. S. Billets | 1925            | 10175           | 12100        |
| 2             | TMT Bars      | 5000            | 7000            | 12000        |
| 3             | M.S. Pipes    | 2500            | 5500            | 8000         |

### 32.Total Water Requirement

### **Brief information of the project by SEAC**

PP submitted their application for the grant of TOR under category 3(a)B1 as per EIA Notification, 2006. PP presented draft TOR based on standard TOR is used by MoEF & CC published in April, 2015. PP has obtained earlier EC vide No. SEAC-2016/CR-242/TC-1 dated 12.05.2017.

Public Hearing is applicable as per EIA Notification, 2006.

The proposal was considered in the 140th meeting of SEAC-1 held on 20.07.2017 wherein TOR was granted to the PP for the preparation EIA/EMP report.

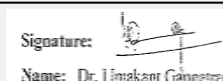

### **DECISION OF SEAC**

**Abhay Pimparkar (Secretary SEAC-I)**

**SEAC Meeting No: 174th - Day-2 Meeting Date:  
January 3, 2020**

**Page 31  
of 56**

**Signature:**  
Name: Dr. Umakant Dangat  
**Dr. Umakant Dangat  
(Chairman SEAC-I)**

PP remained absent.

Hence, deferred.

**Specific Conditions by SEAC:**

- 1) PP to submit lay out plan showing internal roads, location of pollution control equipment, parking areas, 33% green belt, rain water harvesting etc.
- 2) PP to submit their plan for sustained water supply either from MIDC or from rain water harvesting along with calculations.
- 3) PP to submit slag disposal plan.
- 4) PP to submit their plan for reuse, recycle, disposal of fly ash.
- 5) PP to submit copy of on site/ off site emergency plan.
- 6) PP to carry out life cycle analysis to identify sustainability index, ozone depletion and green house potential.
- 7) PP to submit details of proposed CSR activities in consultation with the district collector.
- 8) PP to submit Traffic Impact Study commenting on existing traffic in side and out side, proposed traffic increase and its impact of near by road and mitigation measures.

**FINAL RECOMMENDATION**

SEAC-I decided to defer the proposal. Kindly find SEAC decision above.

SEAC-AGENDA-0000000377

## 174th Meeting of State Level Expert Appraisal Committee (SEAC-1)

**SEAC Meeting number: 174th - Day-2 Meeting Date January 3, 2020**

**Subject:** Environment Clearance for Environment and CRZ clearance for proposed expansion of multipurpose terminal "United Dockyard" with jetty for cargo handling and ship repair facility using floating dry dock at S. No. 41 & 42, H. No. 18 & 19/1, village Katala (Jaigad creek), Tal Guhagar, Dist. Ratnagiri, Maharashtra by M/s. Marine Syndicate Pvt. Ltd.

**Is a Violation Case:** No

|   |   |
|---|---|
| <b>1.Name of Project</b>  | Expansion of Multipurpose Terminal "United Dockyard"  |
| <b>2.Type of institution</b>  | Private   |
| <b>3.Name of Project Proponent</b>  | Mariner, Dilip Bhatkar, M/s. Marine Syndicate Pvt. Ltd.   |
| <b>4.Name of Consultant</b>   | Mahabal Enviro Engineers Pvt. Ltd.  |
| <b>5.Type of project</b>  | Expansion of Multipurpose Terminal. The expansion is proposed for: • Cargo handling capacity: upto 0.2 MTPA (including coal), • Repair of 24 to 30 small ships, barges, tugs, supply vessels etc. upto 75 m length and 5 m draft (on floating dry Dock) per year • Cargo unloading jetty: 13 m x 25 m   |
| <b>6.New project/expansion in existing project/modernization/diversification in existing project</b>          | Expansion in existing project.  |
| <b>7.If expansion/diversification, whether environmental clearance has been obtained for existing project</b> | No, there is an existing loading jetty approved by MMB.   |
| <b>8.Location of the project</b>  | S. No. 41 & 42, H. No. 18 & 19/1, village Katala (Jaigad creek), Tal Guhagar, Dist. Ratnagiri, Maharashtra.   |
| <b>9.Taluka</b>   | Guhagar   |

## SEAC DISCUSSION ON ENVIRONMENTAL ASPECTS

**Abhay Pimparkar (Secretary SEAC-I)**

**SEAC Meeting No: 174th - Day-2 Meeting Date: January 3, 2020**

**Page 41 of 56**

**Dr. Umakant Dangat (Chairman SEAC-I)**

|   |   |
|---|---|
| <b>Environmental Impacts of the project</b>                     | PP submitted EIA report to the committee. Various aspects of the Environment are discussed in the report. PP has conducted base line data collection for Air, Water, Soil & Noise parameters as per EIA Notification, 2006 amended from time to time. |
| <b>Water Budget</b>   | PP submitted water budget calculations in the EIA report and also indicated water requirement at Sr. No 33 of the Consolidated Statement.   |
| <b>Waste Water Treatment</b>                                    | PP proposes ETP for the treatment of waste water. No discharged to be done in the marine water.   |
| <b>Drainage pattern of the project</b>                          | Not Applicable  |
| <b>Ground water parameters</b>                                  | Not Applicable  |
| <b>Solid Waste Management</b>                                   | Hazardous waste will be disposed off at CHWTSDF site. Other solid waste will be handed over to Authorized Vendors.  |
| <b>Air Quality &amp; Noise Level issues</b>                     | As per data submitted by PP, Air Quality and Noise parameters are within the prescribed limits at project site.   |
| <b>Energy Management</b>  | The electrical demand for proposed project is 200 KVA, which will be supplied by MSEDCL. PP also proposes to install two DG set of capacity 125 KVA with HSD as a fuel.   |
| <b>Traffic circulation system and risk assessment</b>           | PP proposed adequate width and turning radius roads for free movement of vehicles.  |
| <b>Landscape Plan</b>   | PP proposes 33% green belt within the premises.   |
| <b>Disaster management system and risk assessment</b>           | PP prepared On site emergency plan to handle the emergency situations.  |
| <b>Socioeconomic impact assessment</b>                          | PP has carried out socio economic impact study and included in the EIA report.  |
| <b>Environmental Management Plan</b>                            | PP prepared EMP cost of Rs.5.50 Lakh during construction phase and 66.00 Lakh as capital cost and Rs. 35.00 Lakh as O & M cost to maintain environmental parameters.  |
| <b>Any other issues related to environmental sustainability</b> | Not Applicable  |
| <b>Brief information of the project by SEAC</b>                 |   |

**Abhay Pimparkar (Secretary SEAC-I)**

**SEAC Meeting No: 174th - Day-2 Meeting Date: January 3, 2020**

**Page 42 of 56**

**Dr. Umakant Dangat (Chairman SEAC-I)**

ToR was granted to the PP in 105th meeting of SEAC-1 held on 02.07.2015 for the preparation of EIA/EMP report. The details of the minutes of the meeting are read as below,

The PP made a detailed presentation about the proposed development of Multipurpose Terminal with Jetty for the following purposes,

1. Cargo handling of about 0.2 MTPA
2. Repair of 24-30 small ships using Floating Dry Dock.

The Committee made following observations,

1. The project is considered as category 7(e)B1 and will require detailed EIA report and Public Consultation.
2. MCZMA and CRZ clearance is required prior to consideration of Environmental Clearance.
3. Under no circumstances should ship breaking be undertaken.
4. The road connectivity from the jetty to state highway road 105 should be strengthened preferably by Maharashtra Maritime Board (MMB).
5. EIA report should address the safe disposal of waste generated from Floating Dry Dock like rust, paint, oil, grease and other waste products.
6. Steps to prevent coal dust effluents enter the creek.
7. Compact STP of 10 CMD capacity should be provided for Domestic Waste.
8. Construction work for Jetty should not result in unexpected impact on water quality.
9. Construction of Jetty and dredging of approach channel, if any, should not impact the morphology of coastline beaches. The project should not affect any marine organism and dredging should not affect fish-life.
10. Disposal of dredging construction waste should not create any adverse Environmental Impact and good site practices should be followed scrupulously.
11. A separate chapter on Risk Assessment and Risk Management of the port and Floating Dry Dock in general and Coal Handling in particular should form a part of EIA.
12. The project should not adversely impact the landscape and the visual appeal of Konkan Coast.

Thereafter, PP obtained extension in the ToR for one year from the SEIAA vide letter No. SEIAA-2018/CR-145/Est. dated 20.12.2018.

PP submitted their EIA/EMP report to the SEAC-1 on 22.05.2019 for appraisal.

Public Hearing was conducted on 05.09.2018 at Lokshikshan Mandal Sabhagriha, village Gonabarewadi, Tal. Guhagar, District Ratnagiri. Copy of proceedings of the Public Hearing submitted by the PP.

SEAC-1 made it clear to the PP that, the appraisal of the proposal shall be limited to the activity of jetty construction as recommended by the MCZMA in their 115th meeting held on 17th to 18th January, 2017.

The proposal was considered in the 167th A meeting of SEAC-1 wherein the proposal was deferred till submission of compliance of following points,

1. PP to submit certificate of incorporation of the company, list of directors and memorandum of association / articles.
2. PP to ensure compliance of the conditions stipulated in the MCZMA recommendation letter. No ship breaking activity is allowed in the proposed project.
3. PP to submit undertaking for not violating any requirements of EIA Notification, 2006.
4. PP to submit lay out plan showing internal roads with minimum six meter width and nine meter turning radius, provision of cul-de-sac at dead ends of the internal roads if any, location of pollution control equipment, parking areas, 33% green belt with its dimensions, rain water harvesting structures (locations with dimensions), storm water drain lines, along with index and area statement showing calculations for each area and cross sections of storm water drain and rain water harvesting pits etc.
5. PP to submit plan layout showing contour levels, storm water drain lines and location of rain water harvesting facilities along with calculations. PP to consider 125 mm rain intensity in Mumbai / Konkan area and 100 mm in rest of the Maharashtra area for the purpose of calculations.
6. PP to submit point wise compliance of all the issues raised during public hearing along with proposed mitigation measures, cost required for compliance and time line for its implementation.
7. PP to include generation, handling & disposal of hazardous waste in the Consolidated Statement and EIA Report.
8. PP to include details of proposed ETP/STP in the EIA report.
9. PP to explore possibility to use mechanized means for pollution control to load/unload minerals like Bauxite, coal etc. so as to control emission of fine dust in the atmosphere. PP to submit details of proposed air pollution control mechanisms.
10. PP to submit revised compliance of point No. 9 of the additional ToR.
11. PP to make necessary changes in the Consolidated Statement with the respect to the activities limited to the Jetty Construction as recommended by MCZMA.
12. PP to submit their CER plan prepared in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

Now PP submitted compliance of above points.

## DECISION OF SEAC

During deliberations PP informed that no ship breaking activities will be undertaken in the proposed project.

After detailed deliberations with the PP and their accredited consultant, SEAC-1 decided to recommend the proposal to the SEIAA for prior Environmental Clearance limited to the activities as approved by MCZMA subject to the following conditions.

### Specific Conditions by SEAC:

- 1) PP to ensure only covered vehicles enter the area. PP to establish mechanism to avoid entry of uncovered vehicles carrying material inside the area.
- 2) PP to implement CER plan in consultation with the District Authority as OM issued by MoEF&CC dated 01.05.2018.
- 3) PP to ensure that, no waste is discharged in the marine water.

## SEAC DISCUSSION ON ENVIRONMENTAL ASPECTS

|   |   |
|---|---|
| <b>Environmental Impacts of the project</b> | PP submitted EIA report to the committee. Various aspects of the Environment are discussed in the report. PP has conducted base line data collection for Air, Water, Soil & Noise parameters as per EIA Notification, 2006 amended from time to time. |
| <b>Water Budget</b>                         | PP submitted water budget calculations in the EIA report and also indicated water requirement at Sr. No 33 of the Consolidated Statement.   |
| <b>Waste Water Treatment</b>                | PP to provide adequate treatment facility for the domestic waste water so as to achieve prescribed standards.   |
| <b>Drainage pattern of the project</b>      | Pp considered the contour levels in design of the projects.   |
| <b>Ground water parameters</b>              | Not Applicable  |

Krishna Marathwada Irrigation Project envisages 3 Lift Irrigation Schemes that is LIS-I, LIS-II, Ashti LIS-III.

PP submitted their application to the EAC, MoEF&CC as category "A" project. The project was proposed to utilize 23.66 TMC of water from available Krishna sub-basin to provide irrigation facility to 87188 ha. area in Osmanabad District of Maharashtra State. The project was proposed in two parts viz. Lift Irrigation Scheme-I (LIS-I) and Lift Irrigation Scheme - II (LIS-II). The Administrative approval for the scheme was given by GoM vide letter No. 2004/1413(385/04) dated 23.08.2007 for Rs. 2382.05 Cr. for 19 TMC of surplus water for irrigation of 87188 ha area in the Osmanabad District. The project was subsequently revised by including LIS-III i.e. - Ashti Lift Irrigation scheme and same has approved by the GoM vide letter dated 27.08.2009 amounting to Rs. 4845.05 Cr. for utilization of 23.66 TMC of water and the project was planned for total 114731 ha. Culturable Command Area i.e. 87188 ha in Osmanabad District & 27543 ha. in Beed District.

The Lift Irrigation Scheme I & II known as Krishna Marathwada Lift Irrigation Scheme has been granted Environmental Clearance by EAC, MoEF&CC after considering the proposal in its 76<sup>th</sup>, 82<sup>nd</sup> and 83<sup>rd</sup> meeting vide letter No. J-12011/58/2008-IA-I dated 24.06.2015. The Environmental Clearance covers the entire water utilization that is 23.66 TMC including water required for Ashti Lift Irrigation Scheme i.e. LIS-III but Culturable Command Area of Ashti Lift Irrigation Scheme was not included in the Environmental Clearance.

Therefore, after discussion with the MoEF&CC officials, PP submitted fresh application to the EAC, MoEF&CC on 02.07.2015 for prior Environment Clearance for LIS-III i.e.- Ashti Lift Irrigation scheme. The proposal was considered in 85<sup>th</sup> EAC meeting held on 20-21<sup>st</sup> July, 2015. The brief of the minutes of the meeting is as below-

"During discussions, the committee observed that the construction work has already been started on the project. The PP mentioned that as the project was originally approved by the GoM as LIS-III of the Krishna Marathwada Project, the construction work was started.

The committee noted that, a violation has been occurred in the project and EAC mentioned that the extent procedure may be followed in the Ministry to deal with/examine such cases at the first instance....

The EAC, therefore mentioned that the case of scoping/ToR clearance for this project cannot be considered at this stage."

The proposal was again considered in 88<sup>th</sup> EAC meeting held on 26-27<sup>th</sup> October, 2015. The brief of the minutes of the meeting is as below-

"The PP submitted vide letter No. CE9(WR) A/bad/T-6/camp/Delhi dated 27.10.2015 and also mentioned that Ashti LIS-III was part of Krishna Marathwada Irrigation Project at that time, the work of Ashti LIS-III was also stopped along with LIS-I & LIS-II of the Osmanabad District. The required undertaking/affidavit and resolution No. 54/G dated 13.06.2014 of Godavari Marathwada Irrigation Development Corporation, Aurangabad was resolved that violation shall not be repeated in future. Based on MoEF&CC directions Department of Environment, GoM wrote to Maharashtra Pollution Control Board to take legal action against the Godavari Marathwada Irrigation Development Corporation. Accordingly criminal case had been filed (RCC 21/2015) against the project proponent.

The committee was informed that, the NGT order on violation committee/occurred in the project has been stayed by the Hon'ble Supreme Court in September, 2015. Hence, this project has been considered. The EAC after critically examining all environmental issues, recommended clearance for pre-construction activities with additional ToR points...."

As per minutes of 88th EAC meeting the project Proponent obtained ToR letter vide No. J-12011/4/2015 dated 10.12.2015. The project was again considered after the grant of ToR by EAC in 18<sup>th</sup> EAC meeting held on 27.09.2018. During deliberation the Member Secretary informed the EAC that vide Ministry's letter dated 14.8.2018, Ashti Lift Irrigation Scheme III (Ashti LIS-III) in Beed District of Maharashtra is having culturable command area (CCA) of less than 50,000 ha, which is now to be considered in the State level by SEIAA, Maharashtra.

EAC also noted that, as the present proposal applied online as a separate proposal, but now, it is to be linked with the Krishna Marathwada Irrigation Project as per the revised Administrative approval as one proposal only that is LIS-I, LIS-II and Ashti LIS-III.

During the EAC meeting, it has been opined that release of funds to the Ashti LIS-III would be difficult, if EC is granted separately to this project. Therefore, the PP requested to the Ministry for Amendment of ToR stating that, it is an integral proposal of Krishna Marathwada Irrigation Scheme. The irrigation technology used for all above cases are same. Therefore, the Notification dated 14.08.2018 is not applicable.

After detailed deliberations, the EAC opined that, the case will be considered in the next EAC meeting to decide the applicability of the EIA Notification, 2006 and amendment thereof, whether the present proposal as per the above Notification be appraised at the State level or ToR to be amended so that the proposal can be appraised at the Central level, accordingly the proposal had been deferred. Before that, the PP will provide a detailed write up on the project along with supporting documents.

The proposal was again considered by the EAC in its 20<sup>th</sup> meeting held on 27.11.2018 wherein Member Secretary, EAC informed the committee vide Ministry's letter dated 14.08.2018, Ashti Lift Irrigation Scheme- LIS-III in Beed District of Maharashtra is having CCA of less than 50,000 ha which is now to be considered in the State level i.e. by SEIAA, Maharashtra.

After detailed deliberations, EAC made following observations and sought the additional information from Project Proponent.

1. The water required for this irrigation project has been proposed to be diverted from river Nira, a tributary to the river Bhima. The work of diversion of water from river Nira (through existing Somanthali and Udhat Barrage) to Bhima basin (existing Ujani Dam) has already been taken up and vide letter dated 24.02.2015, Ministry has already given exemption for Environmental Clearance. As the work of diversion of water from river Nira also becomes integral part of KMP consisting of LIS-I, II & III, this portion needs to be included in the whole project and be updated accordingly.

2. The EC given to KMP vide letter dated 24.06.2015 provided that water availability is 23.66 TMC. As the river Bhima is an interstate river, hydrology and water availability of the KMP be cleared from CWC.

3. Compliance to EC conditions of the existing project to be submitted from Regional Office, Nagpur, MoEF&CC.

4. No forest area is involved in the project. However, felling of trees from the command area is envisaged for which permission be obtained from the Competent Authority as per the order of Hon'ble High Court, Nagpur Bench.

5. The project is an eight monthly irrigation project. The cropping pattern proposed consists of perennial crops like sugarcane, horticulture etc. This anomaly is to be clarified.

6. The crops in the command area are proposed to be irrigated with micro irrigation system. The provisions made in respect of delta for irrigation etc. to be made compatible. There will be an increase in the command area in view of adoption of micro irrigation.

EAC MoEF&CC again considered the proposal in its 21<sup>st</sup> meeting held on 28.01.2019. The brief of the minutes of the meeting is as below-

"The PP was represented in the meeting by only an Executive Engineer. The EAC took note of this and desired that senior officers at the appropriate level, viz. Chief Engineer, etc. who are familiar with the project need to attend the meeting to present the proposal and answer the queries of the EAC members. Such officers will be able to make commitments on behalf of the PP, if required, to ensure the compliance of the approved norms.

In view of above, the EAC deferred the item and directed that, the officers at the appropriate level, viz. Chief Engineer or above will attend the meeting when the project comes up for appraisal."

The proposal was considered in the 163rd meeting of SEAC-1 wherein following decision was taken.

Now the Godavari Marathwada Irrigation Development Corporation (GMIDC), Aurangabad submitted MoEF&CC letter No. J-12011/4/2015 -IA-I (R) dated 01.03.2019 through which the said proposal is referred to the State of Maharashtra. Hence, PP applied for prior Environmental Clearance to the Ashti Lift Irrigation Project - LIS-III as an independent project before SEIAA, Maharashtra.

During deliberations, PP informed following facts regarding project:-

1. Environmental Clearance for the LIS-I & LIS-II (Osmanabad District) had been already issued by the MoEF&CC vide letter No. J-12011/58/2008-IA-I dated 24.06.2015

2. Ashti Lift Irrigation Scheme - III (LIS-III) is a part of Krishna Marathwada Lift Irrigation Scheme (KMP). The administrative approval was obtained from GoM vide resolution No. 2004/1413 (385/04) dated 23.08.2007 for Rs. 2382.50 Crores for 19 TMC water available in Krishna basin. The project was planned for 87188 ha. in Osmanabad District by two lift irrigation schemes.

3. The project was subsequently revised & approved by GoM vide letter dated 27.08.2009 amounting Rs. 4845.05 Crores for utilization of 23.66 TMC water from Ujani reservoir including Ashti LIS - III.

4. The project was planned to be completed in two phases. In first phase, works related to 7 TMC water only are to be taken up and there after work for 16.66 TMC work was planned.

5. The project was again re-planned for total irrigation of 1,14,731 ha. i.e. 87188 ha. in Osmanabad District & 27543 ha. in Beed District by three lift irrigation schemes.

6. The Ashti Lift Irrigation Scheme - LIS - III envisages lifting of 5.68 TMC water from Ujani reservoir.

7. The Ashti Lift Irrigation Scheme- LIS-III proposes to irrigate 27543 ha. area in the Ashti Taluka of Beed District.

After detailed deliberations with the PP and their accredited consultant SEAC-1 noted as below,

1. Godavari Marathwada Irrigation Development Corporation obtained prior Environment Clearance for their schemes LIS-I & LIS-II from the MoEF&CC for 23.66 TMC water use which includes water allotted for Lis-III project.

2. After obtaining revised Administrative approval from the GoM for the use of 23.66 TMC water including Ashti Lift Irrigation Scheme - LIS-III, Beed, PP applied to MoEF&CC for prior Environmental Clearance for Lis-III project..

3. During deliberations in the EAC meetings, PP informed to the committee that, the work of LIS-III has been already started as GoM had approved the scheme vide revised administrative approval in the year 2009.

4. EAC noted the violation and sent back proposal to the Ministry for further necessary action.

5. MoEF&CC wrote to the Environment Department, GoM to take appropriate action against the PP in view of identified violation.

6. Environment Department, GoM directed Maharashtra Pollution Control Board (MPCB) to take credible action against the PP that is GMIDC. Subsequently MPCB filed criminal case against the PP as per procedure stipulated by the MoEF&CC at that time.

7. PP submitted the affidavit from the board of directors of the GMIDC through their resolution that the violation will not be repeated.

8. The same was presented before the EAC, after going through all the documents and requirements EAC decided to grant ToR to the PP for pre-construction activities. ToR letter was issued by the Ministry on 10.12.2015.

9. The proposal was lastly considered on 28.01.2019 and was deferred directing PP to ensure presence of a senior official at the appropriate level, viz. Chief Engineer or above will attend the meeting when the project will come up for appraisal.

10. Now, PP submitted MoEF&CC letter No. J-12011/4/2015 -IA-I (R) dated 01.03.2019 through which the said proposal is referred to the State of Maharashtra by the MoEF&CC.

11. Hence, SEAC-1 considered the proposal in the meeting.

In view of above facts and circumstances of the case as presented by the PP, SEAC-1 is of the view that, the said proposal of LIS-III, Taluka Ashti, Dist. Beed may be considered as a separate proposal | Environmental Clearance for the LIS-I & LIS-II (Osmanabad District) had been already issued by the MoEF&CC vide letter No. J-12011/58/2008-IA-I dated 24.06.2015 as the Culturable Command Area of the project is less than 50,000 ha. falls under category "B" of the EIA Notification, 2006 amended on 14.08.2018.

Hence, SEAC-1 decided to refer the matter to the SEIAA for confirmation of above view or otherwise suitable guidance in the matter.

The proposal was considered in the 167th meeting of SEAC-1 held on 11.07.2019 wherein following decision was taken,

SEIAA considered the proposal in their 168th meeting held on 29.05.2019 wherein following decision was taken,

"SEAC-1 decided to refer the matter to the SEIAA for confirmation of category. During discussion, PP stated that vide MoEF&CC letter No. J-12011/4/2015-IA-I(R) dated 01.03.2019 through which the said proposal is referred to the State of Maharashtra by the MoEF&CC & also Culturable Command Area of the project is less than 50000 Ha. falls under category "B"

SEIAA decided to refer back the proposal to SEAC and inform to consider the proposal under category "B" of the EIA Notification, 2006"

In view of above directions from the SEIAA, SEAC-1 considered the proposal as category "B"

During deliberations, it was brought to the notice of the SEAC-1 that,

The total Culturable Command Area under LIS-III is 35,647 Ha. and total water requirement is 5.68 TMC. As of now the MWRRA has granted permission for lifting of 1.68 TMC water from Ujani Dam back water for which Culturable Command Area is 10,184 Ha.

PP to revise the proposal for Environmental Clearance limited to the water lifting permission granted by the MWRRA for LIS-III project. Accordingly PP to prepare and submit revised information as mentioned above in the Form-II/I, Consolidated Statement, EIA/EMP, Presentation etc. PP also to submit point wise compliance of the Standard ToR conditions and additional ToR points granted by EAC, MoEF&CC.

Hence, SEAC-1 decided to defer the proposal till submission of revised information.

The proposal was considered in the 167th A meeting on 01.08.2019 wherein the proposal was deferred till submission of compliance of following points,

PP also to upload following documents and ensure that there is uniformity of informations in all the documents.

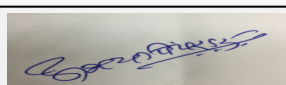

1. PP to make necessary changes in the Consolidated Statement as per sanctions/permissions obtained for water lifting.

2. Revised Form - I & II.

3. All related drawings and map duly authorized by Competent Authority.

4. Revised EIA/EMP report.

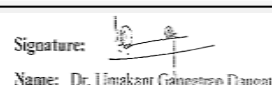

Now PP submitted compliance of above points.

The brief information of the project as submitted by the PP is as below,

Krishna Marathwada Irrigation project envisages three Lift Irrigation Schemes namely LIS-I, LIS-II & LIS-III.

The Project Proponent (PP) submitted application for the grant of Environmental Clearance to EAC, MoEF&CC, New Delhi. The project was proposed to utilize 23.66 TMC water available from Krishna Sub-basin to provide irrigation facility to 87188 Ha area in Osmanabad District of Maharashtra State.

The project was proposed in two parts viz. LIS-I & LIS-II. The administrative approval for the scheme was granted by the Government of Maharashtra on 23.08.2007 for Rs. 2382.05 Cr. The project was subsequently revised by including LIS-III i.e. Ashti Lift Irrigation Scheme and same has been approved by the Government of Maharashtra on 27.08.2009 amounting Rs. 4845.05 Cr for utilization of 23.66 TMC water and the project was planned for total 114731 Ha. Culturable Command Area (CCA) i.e. 87188 Ha. in Osmanabad District and 27543 Ha in Beed District.

The Environmental Clearance for LIS-I & LIS - II known as Krishna Marathwada Lift Irrigation Scheme has been granted by MoEF&CC vide file No. J-12011/58/2008-IA-I dated 24.05.2015 after considering the project in 76<sup>th</sup>, 82<sup>nd</sup> and 83<sup>rd</sup> meeting of EAC.

After due deliberation with the MoEF&CC officials, PP submitted fresh application to the Expert Appraisal Committee (EAC), MoEF&CC, New Delhi for the grant of Environmental Clearance for LIS-III scheme.

PP further informed that, the proposal was considered in the 85<sup>th</sup> meeting of EAC held on 20<sup>th</sup> - 21<sup>st</sup> July, 2015, wherein committee noticed violation of EIA Notification in the proposed project and EAC noted that, the extent procedure as per Office Memorandum dated 12.12.2012 may be followed in the Ministry to deal with/examine the case.

Thereafter, MoEF&CC wrote to the Government of Maharashtra to take action against the PP. The Department of Environment, Government of Maharashtra directed to the Maharashtra Pollution Control Board to take legal action against the Godavari Marathwada Irrigation Development Corporation (GMIDC) as communicated by the MoEF&CC.

As per directions of the Department of Environment GoM, Maharashtra Pollution Control Board filed a criminal case against the PP vide No. RCC 21/2015.

Then, the proposal was again considered in 88<sup>th</sup> meeting of EAC held on 27.10.2015. In the meeting PP informed that, the action as per OM dated 12.12.2012 has been completed and a criminal case No. RCC 21/2015 has been filed against GMIDC. PP also submitted their board resolution No. 54/3 resolving that, violation shall not be repeated in future. After considering the above facts EAC granted ToR for pre-construction activities with additional ToR points vide letter No. J-12011/14/2005 dated 10.12.2015. Thereafter, PP prepared and submitted EIA report to the EAC.

The proposal was further deliberated by the EAC, MoEF&CC in their 18<sup>th</sup>, 20<sup>th</sup> and 21<sup>st</sup> meeting held on 27.09.2018, 27.11.2018 & 28.01.2019 respectively.

PP further informed that, they received letter from MoEF&CC vide No. J-12011/14/2015-IA-II dated 01.03.2019 mentioning that, their proposal is transferred to the State in pursuance of the Notification No. S.O. 3977 E ) dated 14.08.2018 issued by MoEF&CC.

In view of above letter, PP submitted their application to the SEIAA, Maharashtra for further consideration and grant of EC.

#### Deliberations:

After submission of application and copy of letter received from the MoEF&CC, State Expert Appraisal Committee - I (SEAC-1) considered the proposal in 163<sup>rd</sup> meeting and decided to seek the guidance from the SEIAA, Maharashtra in the matter whether to consider the proposal under category 'B' of the EIA Notification, 2006.

SEIAA, Maharashtra considered the proposal in their 167<sup>th</sup> meeting held on 29.05.2019 and directed as below,

"SEIAA decided to refer back the proposal to SEAC-1 and inform to consider the proposal under category 'B' of the EIA Notification, 2006."

As directed by the SEIAA, SEAC-1 deliberated the proposal in 167<sup>th</sup> & 167<sup>th</sup> 'A' meeting held on 11.07.2019 and 01.08.2019.

In 174<sup>th</sup> meeting of the SEAC-1 PP informed that, they have submitted compliance of the points raised during earlier meetings and also submitted additional information in respect of the damage assessment and remediation plan to be followed as a part of Environmental Management Plan. The brief of the same is as below,

1. PP proposes to plant 27545 indigenous trees in the FRL of the proposed project for which PP allocated Rs. 142.81 Lakhs. The activity will be carried out in consultation with the Social Forestry Department.

2. PP proposes to dedicate funds of Rs. 15 Lakhs for air pollution control measures and Rs. 25 Lakhs for noise pollution control measures.

3. PP also proposes allocation of funds Rs. 2757.03 Lakhs for various community augmentation facilities in the village Khuntephal and Kumbhephal.

4. PP proposes to undertake various activities related to water conservation, Environment and Sanitation such as provision of sewerage line and STP, Solid Waste Management program in the village Dhanora, Kada and Loni Pimple. These activities will be implemented in coordination with the Local Bodies like Zilla Parishad & Gram Panchayat under overall supervision of the District Collector.

In addition to above, PP proposes to implement Corporate Environmental Responsibility plan of Rs. 5.23 Cr. in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018. PP also proposes to implement Environment Management plan as below

**During Construction phase** - Rs. 37.50 Lakhs as capital cost & Rs. 12.33 Lakhs as recurring cost.

**During Operation Phase** - Rs. 7340.86 Lakhs as capital cost and Rs. 20.16 as recurring cost.

#### Decision:

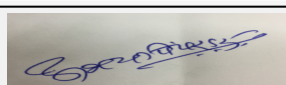

After detailed deliberations with the PP and their accredited consultant SEAC-1 decided to recommend the proposal to SEIAA for Environmental Clearance, limited to the activities as approved in the ToR issued by MoEF&CC vide letter No. J-12011/14/2005 dated 10.12.2015 subject to the following conditions.

#### Specific Conditions by SEAC:

- 1) PP to obtain all requisite permissions/approvals from the MWRSB and other Statutory Authorities before commencement of the project. It is to be noted that, the total CCA area under LIS-II is 35647 Ha., and total water requirement is 5.86 TMC. However, MWRSB has granted permission for lifting of 1.68 TMC water from Ujaini Dam back water for which CCA will be limited to 10.48 Ha.
- 2) PP to obtain prior permission from the competent Authority before cutting the trees on site and undertake necessary compensatory tree plantation.
- 3) PP to take utmost care to reduce air & noise pollution by adopting standard procedures to control or mitigate the air and noise pollution.
- 4) PP to ensure that the excavated material is stored on pre designated place and no nuisance is created to the flora and fauna in the vicinity.
- 5) PP to ensure adequate ecological flow of water in the downstream of the river.
- 6) PP to identify the potential sources of the water pollution in the tank from nearby habitation and provide adequate treatment system like STP for entering water in the storage tank from the CEF and EMP funds by treating the water borne diseases.
- 7) PP to explore possibility of using non-renewable energy sources like solar, wind etc. for lifting of water from Ujaini dam to the proposed storage tanks. This measure may help to enhance the sustainability of the lift irrigation project.
- 8) PP may explore possibility of providing water for irrigation purpose only through micro irrigation systems like drip and sprinklers.

## FINAL RECOMMENDATION

SEAC-I have decided to recommend the proposal to SEIAA for Prior Environmental clearance subject to above conditions

**Abhay Pimparkar (Secretary SEAC-I)**
