Minutes of 188th meeting of SEAC-1 (Day-3)

Date: 22nd to 24th July, 2020

Venue: Through Video Conferencing

Following members of SEAC-1 were present for videoconference.

1. Shri. Umakant Dangat - Chairman
2. Shri. Arvind Dhole - Expert Member
3. Shri. K.M.Shah - Expert Member
4. Shri. P.P.Nandusekar - Expert Member
5. Shri. S.N.Patil - Expert Member
6. Shri. Abhay Thakur - Expert Member
7. Shri. Hemant Sahasrabuddhe - Expert Member
8. Shri. Abhay Pimparkar - Secretary

The minutes of the meeting are finalised during videoconference. Due to present pandemic situation minutes could not be physically signed.

Minutes of 188th meeting of SEAC-1 (Day-3)
Date: 22nd to 24th July, 2020

Venue: Through Video Conferencing

1. Proposal No. **SIA/MH/MIN/152906**	Type: **EC**

INTRODUCTION:

This has reference to your online application vide proposal No. 152906 submitted along with copies of documents seeking the prior Environmental Clearance under the provisions of the EIA Notification, 2006. The proposed project activity is listed at Sr. No. 1(a) Mining of Minerals under category B of the EIA Notification, 2006 amended from time to time and the proposal is appraised in the SEAC-1 committee.

PROJECT DETAILS:

Environment Clearance for Proposed sand ghat located in adjacent to Survey No/ Kh No.4, 6, 7, 9, 10, 11, 12, 15, 16, 18, 20, Area:3.11 Ha. at Village Mhatapuri, Tal.Gangakhed, Dist.Parbhani by District Mining Officer,Parbhani.

Details of earlier EC if any:

No

If yes, Earlier EC No. …… dated ……..; PP to submit copy of certified compliance obtained from the Regional Office of MoEF&CC, Nagpur.

DELIBERATIONS IN SEAC:

After deliberations SEAC observed:-

PP has submitted 30 proposals of prior Environmental Clearance for sand mining from three rivers namely Godavari. Purna, Dudhna of Parbhani District. The Public hearing was conducted on 16th & 17th March 2020. PP submitted Public Hearing report.

The proposal was earlier considered in the 184th meeting of SEAC-1 held on 2nd June 2020 wherein the proposal was deferred for want of additional information required for proper appraisal.

Now, PP presented the compliance.

SEAC-1 apprised the proposal based on the information presented by the Project Proponent and their consultant during the meeting. The District Collector, Parbhani was also present for the meeting.

PP proposes to provide capital EMP cost of Rs. 7.17 Lakhs and recurring EMP cost of Rs. 9.80 Lakhs.

PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Mhatapuri** from their CER funds of Rs. 4 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

Minutes of 188th meeting of SEAC-1 (Day-3)
Date: 22nd to 24th July, 2020

Venue: Through Video Conferencing

RECOMMENDATIONS OF SEAC:

The committee's recommendations:-

After detailed deliberations with the PP and their consultant, SEAC-1 decided to recommend the proposal for prior Environmental Clearance to the SEIAA subject to the following conditions.

CONCLUSION:

Recommended

Conditions:

1. DMO to demarcate the proposed sand ghat along with other infrastructure and facilities as presented in the layout and ensure to provide the demarcation pillar of each sand ghat mine along with geo-referencing before issuing final lease document.

2. The District Collect shall ensure that, the approach road from the proposed sand ghat to the sand storage depot is properly identified and demarcated with the consent of the concern land owners before issuing final lease document.

3. PP to ensure strict compliance of Enforcement & Monitoring Guidelines published by the MoEF&CC in January 2020.

4. PP to adhere to the provisions stipulated in the Sustainable Sand Mining Guidelines issued by MoEF&CC, Maharashtra Minor Mineral Extraction (Development and Regulation) Rules, 2013 and Sand Extraction Policy issued by Maharashtra Government in Revenue and Forest Department.

5. The District Collector and District Mining Officer shall ensure that there is no violation of any order with respect to the sand mining activity passed by the Competent Court. (Particularly, the directions given by Hon'ble Supreme Court of India vide order dated 27.02.2012 in Deepak Kumar case [SLP (C) Nos. 19628-19629 of 2009] and order dated 05.08.2013 of the Hon'ble National Green Tribunal in application No. 171/2013 & 173/2018 be strictly followed.

6. PP to ensure that, the area for removal of the minerals shall not exceed 60% of the mine lease area before issuing final lease.

7. PP to identify the central 3/4th part of river on map where there is a deposition of sand and remaining 1/4th area needs to be kept as no mining zone for the protection of the bank.

8. PP to install permanent boundary pillars at the identified area of the aggradation and deposition outside the bank of the river at a safe location for future surveying. The distance between boundaries on each side of the bank shall not be more than 100 meters.

9. PP to ensure that no mining activity is carried out below the depth as approved by the Competent Authority.

10. PP to make sure that the Environmental Management Plan and CER plan as presented shall be included in the lease agreement to be signed with the lease holder and ensure its implementation.

11. PP to ensure that, the distance of mining activity area from the river bank shall be 1/4th of the river bed width and should not be less than 7.5 meters.

12. PP to ensure that, sand shall not be extracted up to a distance of 1 km from bridges and highways on both sides, or five times (5x) of the span (x) of bridge, public civil structure (including water intake point) on upstream side and ten times (10 x) the span of such bridge on downstream side, subjected to a minimum of 250 meters on the upstream and 500 meters on the downstream side.

13. The District Collector shall define the transportation route from the mining lease considering the maximum production from the mines, size of mining lease, their location, the quantity of mineral that can be mined safely etc considering the movement of trucks/ tippers/tractors for the villages having habitation shall be avoided.

14. PP to ensure following additional measures are to be provided by the leaseholder to prevent any vehicle from transporting sand out of the lease area bypassing the IT enabled system,

    a. To provide one entry and exit point for vehicles. In case it is necessary to have more than one entry/exit all such points have check points all digital monitoring facilities as mentioned in the Enforcement and Monitoring Guidelines issued by MoEF&CC in January 2020. All other possible ways of entry /exit shall be closed using barriers. All provisions shall be made to not make it possible for any vehicle to enter or exit without entry into the computerized system.
    b. All such point shall have 24x7 CCTV coverage, the footage of which shall be submitted to the District Collector by the lease holder at mutually agreed frequencies.

15. The route of mineral transportation vehicle from source to destination shall be tracked through the system using checkpoints, Radio-frequency identification (RFID) tags, and GPS tracking.

16. PP shall carry out sand mining by manual method only. No mechanical /electrical/power driven devices shall be used for sand mining purpose.

17. PP to ensure no stream is diverted due to sand mining activity.

18. PP to ensure that mining/ loading activity shall be restricted to day hours' time only. No mining activity shall be carried out after sunset and before sun rise.

19. PP to ensure that, no vehicles should ply in the river bed.

20. PP to ensure that there is no damage to any fauna and its nesting close to the sand mining.

21. PP to ensure that adequate measures like maintenance of roads, sprinkling of water and plantation is carried out to reduce the dust particulate matter pollution.

22. PP to provide movable bio toilets to the workers working in the area and the sewage generated shall be properly collected and treated so as to confirm to the standards prescribed by MoEF&CC and CPCB.

23. PP to ensure that parking shall be done at designated place only and shall not be done Public roads or in the river bed.

24. The sand transportation shall be carried out through the covered trucks only and the vehicles carrying the mineral shall not be overloaded.

25. PP to provide First Aid facility at the proposed mining site.

26. PP to provide bio toilet on the site and ensure treatment of swage to meet the prescribed parameters as stipulated by the CPCB/MPCB.

27. PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Mhatapuri** from their CER funds of Rs. 4 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

28. The District Collector to ensure strict compliance of all conditions stipulated in the Environmental Clearance. The District Collector should strictly monitor the compliance of the conditions stipulated in the Environment Clearance letter.

Minutes of 188th meeting of SEAC-1 (Day-3)
Date: 22nd to 24th July, 2020

Venue: Through Video Conferencing

2. Proposal No. **SIA/MH/MIN/152909**	Type: **EC**

INTRODUCTION:

This has reference to your online application vide proposal No. 152909 submitted along with copies of documents seeking the prior Environmental Clearance under the provisions of the EIA Notification, 2006. The proposed project activity is listed at Sr. No. 1(a) Mining of Minerals under category B of the EIA Notification, 2006 amended from time to time and the proposal is appraised in the SEAC-1 committee.

PROJECT DETAILS:

Environment Clearance for Proposed sand ghat located in adjacent to Survey No/ Kh No.92,9394 & 98 , Area:1.50 Ha.at Village Bhambharwadi, Tal.Gangakhed, Dist.Parbhani by District Mining Officer,Parbhani.

Details of earlier EC if any:

No

If yes, Earlier EC No. …… dated ……..; PP to submit copy of certified compliance obtained from the Regional Office of MoEF&CC, Nagpur.

DELIBERATIONS IN SEAC:

After deliberations SEAC observed:-

PP has submitted 30 proposals of prior Environmental Clearance for sand mining from three rivers namely Godavari. Purna, Dudhna of Parbhani District. The Public hearing was conducted on 16th & 17th March 2020. PP submitted Public Hearing report.

The proposal was earlier considered in the 184th meeting of SEAC-1 held on 2nd June 2020 wherein the proposal was deferred for want of additional information required for proper appraisal.

Now, PP presented the compliance.

SEAC-1 apprised the proposal based on the information presented by the Project Proponent and their consultant during the meeting. The District Collector, Parbhani was also present for the meeting.

PP proposes to provide capital EMP cost of Rs. 6.57 Lakhs and recurring EMP cost of Rs. 8.77 Lakhs.

PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Bhambarwadi** from their CER funds of Rs. 2 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

RECOMMENDATIONS OF SEAC:

The committee's recommendations:-

After detailed deliberations with the PP and their consultant, SEAC-1 decided to recommend the proposal for prior Environmental Clearance to the SEIAA subject to the following conditions.

    b. All such point shall have 24x7 CCTV coverage, the footage of which shall be submitted to the District Collector by the lease holder at mutually agreed frequencies.

15. The route of mineral transportation vehicle from source to destination shall be tracked through the system using checkpoints, Radio-frequency identification (RFID) tags, and GPS tracking.

16. PP shall carry out sand mining by manual method only. No mechanical /electrical/power driven devices shall be used for sand mining purpose.

17. PP to ensure no stream is diverted due to sand mining activity.

18. PP to ensure that mining/ loading activity shall be restricted to day hours' time only. No mining activity shall be carried out after sunset and before sun rise.

19. PP to ensure that, no vehicles should ply in the river bed.

20. PP to ensure that there is no damage to any fauna and its nesting close to the sand mining.

21. PP to ensure that adequate measures like maintenance of roads, sprinkling of water and plantation is carried out to reduce the dust particulate matter pollution.

22. PP to provide movable bio toilets to the workers working in the area and the sewage generated shall be properly collected and treated so as to confirm to the standards prescribed by MoEF&CC and CPCB.

23. PP to ensure that parking shall be done at designated place only and shall not be done Public roads or in the river bed.

24. The sand transportation shall be carried out through the covered trucks only and the vehicles carrying the mineral shall not be overloaded.

25. PP to provide First Aid facility at the proposed mining site.

26. PP to provide bio toilet on the site and ensure treatment of swage to meet the prescribed parameters as stipulated by the CPCB/MPCB.

27. PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Pimpari Zhola** from their CER funds of Rs. 4 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

28. The District Collector to ensure strict compliance of all conditions stipulated in the Environmental Clearance. The District Collector should strictly monitor the compliance of the conditions stipulated in the Environment Clearance letter.

Minutes of 188th meeting of SEAC-1 (Day-3)
Date: 22nd to 24th July, 2020

Venue: Through Video Conferencing

5. Proposal No. **SIA/MH/MIN/152883**	Type: **EC**

INTRODUCTION:

This has reference to your online application vide proposal No. 152883 submitted along with copies of documents seeking the prior Environmental Clearance under the provisions of the EIA Notification, 2006. The proposed project activity is listed at Sr. No. 1(a) Mining of Minerals under category B of the EIA Notification, 2006 amended from time to time and the proposal is appraised in the SEAC-1 committee.

PROJECT DETAILS:

Environment Clearance for Proposed sand ghat located in adjacent to Kh No.59, 60 , Area:2.10 Ha. Mouza:Dhanewadi, Tehsil:Palam District:Parbhani by District Mining Officer,Parbhani.

Details of earlier EC if any:

No

If yes, Earlier EC No. …… dated ……..; PP to submit copy of certified compliance obtained from the Regional Office of MoEF&CC, Nagpur.

DELIBERATIONS IN SEAC:

After deliberations SEAC observed:-

PP has submitted 30 proposals of prior Environmental Clearance for sand mining from three rivers namely Godavari. Purna, Dudhna of Parbhani District. The Public hearing was conducted on 16th & 17th March 2020. PP submitted Public Hearing report.

The proposal was earlier considered in the 184th meeting of SEAC-1 held on 2nd June 2020 wherein the proposal was deferred for want of additional information required for proper appraisal.

Now, PP presented the compliance.

SEAC-1 apprised the proposal based on the information presented by the Project Proponent and their consultant during the meeting. The District Collector, Parbhani was also present for the meeting.

PP proposes to provide capital EMP cost of Rs. 6.07Lakhs and recurring EMP cost of Rs. 10.25 Lakhs.

PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Dhanewadi** from their CER funds of Rs. 5 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

Minutes of 188th meeting of SEAC-1 (Day-3)
Date: 22nd to 24th July, 2020

Venue: Through Video Conferencing

RECOMMENDATIONS OF SEAC:

The committee's recommendations:-

After detailed deliberations with the PP and their consultant, SEAC-1 decided to recommend the proposal for prior Environmental Clearance to the SEIAA subject to the following conditions.

CONCLUSION:

Recommended

Conditions:

1. DMO to demarcate the proposed sand ghat along with other infrastructure and facilities as presented in the layout and ensure to provide the demarcation pillar of each sand ghat mine along with geo-referencing before issuing final lease document.

2. The District Collect shall ensure that, the approach road from the proposed sand ghat to the sand storage depot is properly identified and demarcated with the consent of the concern land owners before issuing final lease document.

3. PP to ensure strict compliance of Enforcement & Monitoring Guidelines published by the MoEF&CC in January 2020.

4. PP to adhere to the provisions stipulated in the Sustainable Sand Mining Guidelines issued by MoEF&CC, Maharashtra Minor Mineral Extraction (Development and Regulation) Rules, 2013 and Sand Extraction Policy issued by Maharashtra Government in Revenue and Forest Department.

5. The District Collector and District Mining Officer shall ensure that there is no violation of any order with respect to the sand mining activity passed by the Competent Court. (Particularly, the directions given by Hon'ble Supreme Court of India vide order dated 27.02.2012 in Deepak Kumar case [SLP (C) Nos. 19628-19629 of 2009] and order dated 05.08.2013 of the Hon'ble National Green Tribunal in application No. 171/2013 & 173/2018 be strictly followed.

6. PP to ensure that, the area for removal of the minerals shall not exceed 60% of the mine lease area before issuing final lease.

7. PP to identify the central 3/4th part of river on map where there is a deposition of sand and remaining 1/4th area needs to be kept as no mining zone for the protection of the bank.

8. PP to install permanent boundary pillars at the identified area of the aggradation and deposition outside the bank of the river at a safe location for future surveying. The distance between boundaries on each side of the bank shall not be more than 100 meters.

9. PP to ensure that no mining activity is carried out below the depth as approved by the Competent Authority.

10. PP to make sure that the Environmental Management Plan and CER plan as presented shall be included in the lease agreement to be signed with the lease holder and ensure its implementation.

11. PP to ensure that, the distance of mining activity area from the river bank shall be 1/4th of the river bed width and should not be less than 7.5 meters.

12. PP to ensure that, sand shall not be extracted up to a distance of 1 km from bridges and highways on both sides, or five times (5x) of the span (x) of bridge, public civil structure (including water intake point) on upstream side and ten times (10 x) the span of such bridge on downstream side, subjected to a minimum of 250 meters on the upstream and 500 meters on the downstream side.

13. The District Collector shall define the transportation route from the mining lease considering the maximum production from the mines, size of mining lease, their location, the quantity of mineral that can be mined safely etc considering the movement of trucks/ tippers/tractors for the villages having habitation shall be avoided.

14. PP to ensure following additional measures are to be provided by the leaseholder to prevent any vehicle from transporting sand out of the lease area bypassing the IT enabled system,

    a. To provide one entry and exit point for vehicles. In case it is necessary to have more than one entry/exit all such points have check points all digital monitoring facilities as mentioned in the Enforcement and Monitoring Guidelines issued by MoEF&CC in January 2020. All other possible ways of entry /exit shall be closed using barriers. All provisions shall be made to not make it possible for any vehicle to enter or exit without entry into the computerized system.
    b. All such point shall have 24x7 CCTV coverage, the footage of which shall be submitted to the District Collector by the lease holder at mutually agreed frequencies.

15. The route of mineral transportation vehicle from source to destination shall be tracked through the system using checkpoints, Radio-frequency identification (RFID) tags, and GPS tracking.

16. PP shall carry out sand mining by manual method only. No mechanical /electrical/power driven devices shall be used for sand mining purpose.

17. PP to ensure no stream is diverted due to sand mining activity.

18. PP to ensure that mining/ loading activity shall be restricted to day hours' time only. No mining activity shall be carried out after sunset and before sun rise.

19. PP to ensure that, no vehicles should ply in the river bed.

20. PP to ensure that there is no damage to any fauna and its nesting close to the sand mining.

21. PP to ensure that adequate measures like maintenance of roads, sprinkling of water and plantation is carried out to reduce the dust particulate matter pollution.

22. PP to provide movable bio toilets to the workers working in the area and the sewage generated shall be properly collected and treated so as to confirm to the standards prescribed by MoEF&CC and CPCB.

23. PP to ensure that parking shall be done at designated place only and shall not be done Public roads or in the river bed.

24. The sand transportation shall be carried out through the covered trucks only and the vehicles carrying the mineral shall not be overloaded.

25. PP to provide First Aid facility at the proposed mining site.

26. PP to provide bio toilet on the site and ensure treatment of swage to meet the prescribed parameters as stipulated by the CPCB/MPCB.

27. PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Dhanewadi** from their CER funds of Rs. 5 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

28. The District Collector to ensure strict compliance of all conditions stipulated in the Environmental Clearance. The District Collector should strictly monitor the compliance of the conditions stipulated in the Environment Clearance letter.

Minutes of 188th meeting of SEAC-1 (Day-3)
Date: 22nd to 24th July, 2020

Venue: Through Video Conferencing

11. PP to ensure that, the distance of mining activity area from the river bank shall be 1/4th of the river bed width and should not be less than 7.5 meters.

12. PP to ensure that, sand shall not be extracted up to a distance of 1 km from bridges and highways on both sides, or five times (5x) of the span (x) of bridge, public civil structure (including water intake point) on upstream side and ten times (10 x) the span of such bridge on downstream side, subjected to a minimum of 250 meters on the upstream and 500 meters on the downstream side.

13. The District Collector shall define the transportation route from the mining lease considering the maximum production from the mines, size of mining lease, their location, the quantity of mineral that can be mined safely etc considering the movement of trucks/ tippers/tractors for the villages having habitation shall be avoided.

14. PP to ensure following additional measures are to be provided by the leaseholder to prevent any vehicle from transporting sand out of the lease area bypassing the IT enabled system,

    a. To provide one entry and exit point for vehicles. In case it is necessary to have more than one entry/exit all such points have check points all digital monitoring facilities as mentioned in the Enforcement and Monitoring Guidelines issued by MoEF&CC in January 2020. All other possible ways of entry /exit shall be closed using barriers. All provisions shall be made to not make it possible for any vehicle to enter or exit without entry into the computerized system.
    b. All such point shall have 24x7 CCTV coverage, the footage of which shall be submitted to the District Collector by the lease holder at mutually agreed frequencies.

15. The route of mineral transportation vehicle from source to destination shall be tracked through the system using checkpoints, Radio-frequency identification (RFID) tags, and GPS tracking.

16. PP shall carry out sand mining by manual method only. No mechanical /electrical/power driven devices shall be used for sand mining purpose.

17. PP to ensure no stream is diverted due to sand mining activity.

18. PP to ensure that mining/ loading activity shall be restricted to day hours' time only. No mining activity shall be carried out after sunset and before sun rise.

19. PP to ensure that, no vehicles should ply in the river bed.

20. PP to ensure that there is no damage to any fauna and its nesting close to the sand mining.

21. PP to ensure that adequate measures like maintenance of roads, sprinkling of water and plantation is carried out to reduce the dust particulate matter pollution.

22. PP to provide movable bio toilets to the workers working in the area and the sewage generated shall be properly collected and treated so as to confirm to the standards prescribed by MoEF&CC and CPCB.

23. PP to ensure that parking shall be done at designated place only and shall not be done Public roads or in the river bed.

24. The sand transportation shall be carried out through the covered trucks only and the vehicles carrying the mineral shall not be overloaded.

25. PP to provide First Aid facility at the proposed mining site.

26. PP to provide bio toilet on the site and ensure treatment of swage to meet the prescribed parameters as stipulated by the CPCB/MPCB.

27. PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Morgaon** from their CER funds of Rs. 2 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

28. The District Collector to ensure strict compliance of all conditions stipulated in the Environmental Clearance. The District Collector should strictly monitor the compliance of the conditions stipulated in the Environment Clearance letter.

Minutes of 188th meeting of SEAC-1 (Day-3)
Date: 22nd to 24th July, 2020

Venue: Through Video Conferencing

9. Proposal No. **SIA/MH/MIN/152847**	Type: **EC**

INTRODUCTION:

This has reference to your online application vide proposal No. 152847 submitted along with copies of documents seeking the prior Environmental Clearance under the provisions of the EIA Notification, 2006. The proposed project activity is listed at Sr. No. 1(a) Mining of Minerals under category B of the EIA Notification, 2006 amended from time to time and the proposal is appraised in the SEAC-1 committee.

PROJECT DETAILS:

Environment Clearance for Proposed sand ghat located in adjacent to Adjacent Kh. No.: 5, 7, 10, 11, 12, 13, 14, 26, 27, 28, 29, 30, 31, 32, 33, 34, 71, 72, 73 ,Area:1.00 Ha.,Mouza: Kajali Rohina, Tehsil: Selu,Dist.Parbhani by District Mining Officer,Parbhani.

Details of earlier EC if any:

Yes

If yes, Earlier EC No. 0000001076 dated 19.02.2019; PP to submit copy of certified compliance obtained from the Regional Office of MoEF&CC, Nagpur.

DELIBERATIONS IN SEAC:

After deliberations SEAC observed:-

PP has submitted 30 proposals of prior Environmental Clearance for sand mining from three rivers namely Godavari. Purna, Dudhna of Parbhani District. The Public hearing was conducted on 16th & 17th March 2020. PP submitted Public Hearing report.

The proposal was earlier considered in the 184th meeting of SEAC-1 held on 2nd June 2020 wherein the proposal was deferred for want of additional information required for proper appraisal.

Now, PP presented the compliance.

SEAC-1 apprised the proposal based on the information presented by the Project Proponent and their consultant during the meeting. The District Collector, Parbhani was also present for the meeting.

PP proposes to provide capital EMP cost of Rs. 6.20 Lakhs and recurring EMP cost of Rs. 9.15 Lakhs.

PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Kjali** from their CER funds of Rs. 2 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

Minutes of 188th meeting of SEAC-1 (Day-3)
Date: 22nd to 24th July, 2020

Venue: Through Video Conferencing

RECOMMENDATIONS OF SEAC:

The committee's recommendations:-

After detailed deliberations with the PP and their consultant, SEAC-1 decided to recommend the proposal for prior Environmental Clearance to the SEIAA subject to the following conditions.

CONCLUSION:

Recommended

Conditions:

1. PP to submit to the SEIAA, the certified compliance of the earlier Environmental Clearance conditions to be obtained from the Regional Office of MoEF&CC, Nagpur.

2. DMO to demarcate the proposed sand ghat along with other infrastructure and facilities as presented in the layout and ensure to provide the demarcation pillar of each sand ghat mine along with geo-referencing before issuing final lease document.

3. The District Collect shall ensure that, the approach road from the proposed sand ghat to the sand storage depot is properly identified and demarcated with the consent of the concern land owners before issuing final lease document.

4. PP to ensure strict compliance of Enforcement & Monitoring Guidelines published by the MoEF&CC in January 2020.

5. PP to adhere to the provisions stipulated in the Sustainable Sand Mining Guidelines issued by MoEF&CC, Maharashtra Minor Mineral Extraction (Development and Regulation) Rules, 2013 and Sand Extraction Policy issued by Maharashtra Government in Revenue and Forest Department.

6. The District Collector and District Mining Officer shall ensure that there is no violation of any order with respect to the sand mining activity passed by the Competent Court. (Particularly, the directions given by Hon'ble Supreme Court of India vide order dated 27.02.2012 in Deepak Kumar case [SLP (C) Nos. 19628-19629 of 2009] and order dated 05.08.2013 of the Hon'ble National Green Tribunal in application No. 171/2013 & 173/2018 be strictly followed.

7. PP to ensure that, the area for removal of the minerals shall not exceed 60% of the mine lease area before issuing final lease.

8. PP to identify the central 3/4th part of river on map where there is a deposition of sand and remaining 1/4th area needs to be kept as no mining zone for the protection of the bank.

9. PP to install permanent boundary pillars at the identified area of the aggradation and deposition outside the bank of the river at a safe location for future surveying. The distance between boundaries on each side of the bank shall not be more than 100 meters.

10. PP to ensure that no mining activity is carried out below the depth as approved by the Competent Authority.

11. PP to make sure that the Environmental Management Plan and CER plan as presented shall be included in the lease agreement to be signed with the lease holder and ensure its implementation.

12. PP to ensure that, the distance of mining activity area from the river bank shall be 1/4th of the river bed width and should not be less than 7.5 meters.

13. PP to ensure that, sand shall not be extracted up to a distance of 1 km from bridges and highways on both sides, or five times (5x) of the span (x) of bridge, public civil structure (including water intake point) on upstream side and ten times (10 x) the span of such bridge on downstream side, subjected to a minimum of 250 meters on the upstream and 500 meters on the downstream side.

14. The District Collector shall define the transportation route from the mining lease considering the maximum production from the mines, size of mining lease, their location, the quantity of mineral that can be mined safely etc considering the movement of trucks/ tippers/tractors for the villages having habitation shall be avoided.

15. PP to ensure following additional measures are to be provided by the leaseholder to prevent any vehicle from transporting sand out of the lease area bypassing the IT enabled system,

    a. To provide one entry and exit point for vehicles. In case it is necessary to have more than one entry/exit all such points have check points all digital monitoring facilities as mentioned in the Enforcement and Monitoring Guidelines issued by MoEF&CC in January 2020. All other possible ways of entry /exit shall be closed using barriers. All provisions shall be made to not make it possible for any vehicle to enter or exit without entry into the computerized system.
    b. All such point shall have 24x7 CCTV coverage, the footage of which shall be submitted to the District Collector by the lease holder at mutually agreed frequencies.

16. The route of mineral transportation vehicle from source to destination shall be tracked through the system using checkpoints, Radio-frequency identification (RFID) tags, and GPS tracking.

17. PP shall carry out sand mining by manual method only. No mechanical /electrical/power driven devices shall be used for sand mining purpose.

18. PP to ensure no stream is diverted due to sand mining activity.

19. PP to ensure that mining/ loading activity shall be restricted to day hours' time only. No mining activity shall be carried out after sunset and before sun rise.

20. PP to ensure that, no vehicles should ply in the river bed.

21. PP to ensure that there is no damage to any fauna and its nesting close to the sand mining.

22. PP to ensure that adequate measures like maintenance of roads, sprinkling of water and plantation is carried out to reduce the dust particulate matter pollution.

23. PP to provide movable bio toilets to the workers working in the area and the sewage generated shall be properly collected and treated so as to confirm to the standards prescribed by MoEF&CC and CPCB.

24. PP to ensure that parking shall be done at designated place only and shall not be done Public roads or in the river bed.

25. The sand transportation shall be carried out through the covered trucks only and the vehicles carrying the mineral shall not be overloaded.

26. PP to provide First Aid facility at the proposed mining site.

27. PP to provide bio toilet on the site and ensure treatment of swage to meet the prescribed parameters as stipulated by the CPCB/MPCB.

28. PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Kajali** from their CER funds of Rs. 2 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

29. The District Collector to ensure strict compliance of all conditions stipulated in the Environmental Clearance. The District Collector should strictly monitor the compliance of the conditions stipulated in the Environment Clearance letter.

4. PP to adhere to the provisions stipulated in the Sustainable Sand Mining Guidelines issued by MoEF&CC, Maharashtra Minor Mineral Extraction (Development and Regulation) Rules, 2013 and Sand Extraction Policy issued by Maharashtra Government in Revenue and Forest Department.

5. The District Collector and District Mining Officer shall ensure that there is no violation of any order with respect to the sand mining activity passed by the Competent Court. (Particularly, the directions given by Hon'ble Supreme Court of India vide order dated 27.02.2012 in Deepak Kumar case [SLP (C) Nos. 19628-19629 of 2009] and order dated 05.08.2013 of the Hon'ble National Green Tribunal in application No. 171/2013 & 173/2018 be strictly followed.

6. PP to ensure that, the area for removal of the minerals shall not exceed 60% of the mine lease area before issuing final lease.

7. PP to identify the central 3/4th part of river on map where there is a deposition of sand and remaining 1/4th area needs to be kept as no mining zone for the protection of the bank.

8. PP to install permanent boundary pillars at the identified area of the aggradation and deposition outside the bank of the river at a safe location for future surveying. The distance between boundaries on each side of the bank shall not be more than 100 meters.

9. PP to ensure that no mining activity is carried out below the depth as approved by the Competent Authority.

10. PP to make sure that the Environmental Management Plan and CER plan as presented shall be included in the lease agreement to be signed with the lease holder and ensure its implementation.

11. PP to ensure that, the distance of mining activity area from the river bank shall be 1/4th of the river bed width and should not be less than 7.5 meters.

12. PP to ensure that, sand shall not be extracted up to a distance of 1 km from bridges and highways on both sides, or five times (5x) of the span (x) of bridge, public civil structure (including water intake point) on upstream side and ten times (10 x) the span of such bridge on downstream side, subjected to a minimum of 250 meters on the upstream and 500 meters on the downstream side.

13. The District Collector shall define the transportation route from the mining lease considering the maximum production from the mines, size of mining lease, their location, the quantity of mineral that can be mined safely etc considering the movement of trucks/ tippers/tractors for the villages having habitation shall be avoided.

14. PP to ensure following additional measures are to be provided by the leaseholder to prevent any vehicle from transporting sand out of the lease area bypassing the IT enabled system,

    a. To provide one entry and exit point for vehicles. In case it is necessary to have more than one entry/exit all such points have check points all digital monitoring facilities as mentioned in the Enforcement and Monitoring Guidelines issued by MoEF&CC in January 2020. All other possible ways of entry /exit shall be closed using barriers. All provisions shall be made to not make it possible for any vehicle to enter or exit without entry into the computerized system.
    b. All such point shall have 24x7 CCTV coverage, the footage of which shall be submitted to the District Collector by the lease holder at mutually agreed frequencies.

15. The route of mineral transportation vehicle from source to destination shall be tracked through the system using checkpoints, Radio-frequency identification (RFID) tags, and GPS tracking.

16. PP shall carry out sand mining by manual method only. No mechanical /electrical/power driven devices shall be used for sand mining purpose.

17. PP to ensure no stream is diverted due to sand mining activity.

18. PP to ensure that mining/ loading activity shall be restricted to day hours' time only. No mining activity shall be carried out after sunset and before sun rise.

19. PP to ensure that, no vehicles should ply in the river bed.

20. PP to ensure that there is no damage to any fauna and its nesting close to the sand mining.

21. PP to ensure that adequate measures like maintenance of roads, sprinkling of water and plantation is carried out to reduce the dust particulate matter pollution.

22. PP to provide movable bio toilets to the workers working in the area and the sewage generated shall be properly collected and treated so as to confirm to the standards prescribed by MoEF&CC and CPCB.

23. PP to ensure that parking shall be done at designated place only and shall not be done Public roads or in the river bed.

24. The sand transportation shall be carried out through the covered trucks only and the vehicles carrying the mineral shall not be overloaded.

25. PP to provide First Aid facility at the proposed mining site.

26. PP to provide bio toilet on the site and ensure treatment of swage to meet the prescribed parameters as stipulated by the CPCB/MPCB.

27. PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Golegaon** from their CER funds of Rs. 2 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

28. The District Collector to ensure strict compliance of all conditions stipulated in the Environmental Clearance. The District Collector should strictly monitor the compliance of the conditions stipulated in the Environment Clearance letter.

Minutes of 188th meeting of SEAC-1 (Day-3)
Date: 22nd to 24th July, 2020

Venue: Through Video Conferencing

13. Proposal No. **SIA/MH/MIN/152837**	Type: **EC**

INTRODUCTION:

This has reference to your online application vide proposal No. 152837 submitted along with copies of documents seeking the prior Environmental Clearance under the provisions of the EIA Notification, 2006. The proposed project activity is listed at Sr. No. 1(a) Mining of Minerals under category B of the EIA Notification, 2006 amended from time to time and the proposal is appraised in the SEAC-1 committee.

PROJECT DETAILS:

Environment Clearance for Proposed sand ghat located in adjacent to Kh No.: ,1,2,3,4,5,Area:2.45 Ha.at Village Kalgaon , Tal.Purna , Dist.Parbhani by District Mining Officer,Parbhani.

Details of earlier EC if any:

No

If yes, Earlier EC No. …… dated ……..; PP to submit copy of certified compliance obtained from the Regional Office of MoEF&CC, Nagpur.

DELIBERATIONS IN SEAC:

After deliberations SEAC observed:-

PP has submitted 30 proposals of prior Environmental Clearance for sand mining from three rivers namely Godavari. Purna, Dudhna of Parbhani District. The Public hearing was conducted on 16th & 17th March 2020. PP submitted Public Hearing report.

The proposal was earlier considered in the 184th meeting of SEAC-1 held on 2nd June 2020 wherein the proposal was deferred for want of additional information required for proper appraisal.

Now, PP presented the compliance.

SEAC-1 apprised the proposal based on the information presented by the Project Proponent and their consultant during the meeting. The District Collector, Parbhani was also present for the meeting.

PP proposes to provide capital EMP cost of Rs. 8.00 Lakhs and recurring EMP cost of Rs. 10.36 Lakhs.

PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Kalgaon** from their CER funds of Rs. 4.5 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

Minutes of 188th meeting of SEAC-1 (Day-3)
Date: 22nd to 24th July, 2020

Venue: Through Video Conferencing

RECOMMENDATIONS OF SEAC:

The committee's recommendations:-

After detailed deliberations with the PP and their consultant, SEAC-1 decided to recommend the proposal for prior Environmental Clearance to the SEIAA subject to the following conditions.

CONCLUSION:

Recommended

Conditions:

1. DMO to demarcate the proposed sand ghat along with other infrastructure and facilities as presented in the layout and ensure to provide the demarcation pillar of each sand ghat mine along with geo-referencing before issuing final lease document.

2. The District Collect shall ensure that, the approach road from the proposed sand ghat to the sand storage depot is properly identified and demarcated with the consent of the concern land owners before issuing final lease document.

3. PP to ensure strict compliance of Enforcement & Monitoring Guidelines published by the MoEF&CC in January 2020.

4. PP to adhere to the provisions stipulated in the Sustainable Sand Mining Guidelines issued by MoEF&CC, Maharashtra Minor Mineral Extraction (Development and Regulation) Rules, 2013 and Sand Extraction Policy issued by Maharashtra Government in Revenue and Forest Department.

5. The District Collector and District Mining Officer shall ensure that there is no violation of any order with respect to the sand mining activity passed by the Competent Court. (Particularly, the directions given by Hon'ble Supreme Court of India vide order dated 27.02.2012 in Deepak Kumar case [SLP (C) Nos. 19628-19629 of 2009] and order dated 05.08.2013 of the Hon'ble National Green Tribunal in application No. 171/2013 & 173/2018 be strictly followed.

6. PP to ensure that, the area for removal of the minerals shall not exceed 60% of the mine lease area before issuing final lease.

7. PP to identify the central 3/4th part of river on map where there is a deposition of sand and remaining 1/4th area needs to be kept as no mining zone for the protection of the bank.

8. PP to install permanent boundary pillars at the identified area of the aggradation and deposition outside the bank of the river at a safe location for future surveying. The distance between boundaries on each side of the bank shall not be more than 100 meters.

9. PP to ensure that no mining activity is carried out below the depth as approved by the Competent Authority.

10. PP to make sure that the Environmental Management Plan and CER plan as presented shall be included in the lease agreement to be signed with the lease holder and ensure its implementation.

11. PP to ensure that, the distance of mining activity area from the river bank shall be 1/4th of the river bed width and should not be less than 7.5 meters.

12. PP to ensure that, sand shall not be extracted up to a distance of 1 km from bridges and highways on both sides, or five times (5x) of the span (x) of bridge, public civil structure (including water intake point) on upstream side and ten times (10 x) the span of such bridge on downstream side, subjected to a minimum of 250 meters on the upstream and 500 meters on the downstream side.

13. The District Collector shall define the transportation route from the mining lease considering the maximum production from the mines, size of mining lease, their location, the quantity of mineral that can be mined safely etc considering the movement of trucks/ tippers/tractors for the villages having habitation shall be avoided.

14. PP to ensure following additional measures are to be provided by the leaseholder to prevent any vehicle from transporting sand out of the lease area bypassing the IT enabled system,

    a. To provide one entry and exit point for vehicles. In case it is necessary to have more than one entry/exit all such points have check points all digital monitoring facilities as mentioned in the Enforcement and Monitoring Guidelines issued by MoEF&CC in January 2020. All other possible ways of entry /exit shall be closed using barriers. All provisions shall be made to not make it possible for any vehicle to enter or exit without entry into the computerized system.
    b. All such point shall have 24x7 CCTV coverage, the footage of which shall be submitted to the District Collector by the lease holder at mutually agreed frequencies.

15. The route of mineral transportation vehicle from source to destination shall be tracked through the system using checkpoints, Radio-frequency identification (RFID) tags, and GPS tracking.

16. PP shall carry out sand mining by manual method only. No mechanical /electrical/power driven devices shall be used for sand mining purpose.

17. PP to ensure no stream is diverted due to sand mining activity.

18. PP to ensure that mining/ loading activity shall be restricted to day hours' time only. No mining activity shall be carried out after sunset and before sun rise.

19. PP to ensure that, no vehicles should ply in the river bed.

20. PP to ensure that there is no damage to any fauna and its nesting close to the sand mining.

21. PP to ensure that adequate measures like maintenance of roads, sprinkling of water and plantation is carried out to reduce the dust particulate matter pollution.

22. PP to provide movable bio toilets to the workers working in the area and the sewage generated shall be properly collected and treated so as to confirm to the standards prescribed by MoEF&CC and CPCB.

23. PP to ensure that parking shall be done at designated place only and shall not be done Public roads or in the river bed.

24. The sand transportation shall be carried out through the covered trucks only and the vehicles carrying the mineral shall not be overloaded.

25. PP to provide First Aid facility at the proposed mining site.

26. PP to provide bio toilet on the site and ensure treatment of swage to meet the prescribed parameters as stipulated by the CPCB/MPCB.

27. PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Kalgaon** from their CER funds of Rs. 4.5 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

28. The District Collector to ensure strict compliance of all conditions stipulated in the Environmental Clearance. The District Collector should strictly monitor the compliance of the conditions stipulated in the Environment Clearance letter.

PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Vazar bk. 1 & 2**from their CER funds of Rs. 5 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

Minutes of 188th meeting of SEAC-1 (Day-3)
Date: 22nd to 24th July, 2020

Venue: Through Video Conferencing

RECOMMENDATIONS OF SEAC:

The committee's recommendations:-

After detailed deliberations with the PP and their consultant, SEAC-1 decided to recommend the proposal for prior Environmental Clearance to the SEIAA subject to the following conditions.

CONCLUSION:

Recommended

Conditions:

1. DMO to demarcate the proposed sand ghat along with other infrastructure and facilities as presented in the layout and ensure to provide the demarcation pillar of each sand ghat mine along with geo-referencing before issuing final lease document.

2. The District Collect shall ensure that, the approach road from the proposed sand ghat to the sand storage depot is properly identified and demarcated with the consent of the concern land owners before issuing final lease document.

3. PP to ensure strict compliance of Enforcement & Monitoring Guidelines published by the MoEF&CC in January 2020.

4. PP to adhere to the provisions stipulated in the Sustainable Sand Mining Guidelines issued by MoEF&CC, Maharashtra Minor Mineral Extraction (Development and Regulation) Rules, 2013 and Sand Extraction Policy issued by Maharashtra Government in Revenue and Forest Department.

5. The District Collector and District Mining Officer shall ensure that there is no violation of any order with respect to the sand mining activity passed by the Competent Court. (Particularly, the directions given by Hon'ble Supreme Court of India vide order dated 27.02.2012 in Deepak Kumar case [SLP (C) Nos. 19628-19629 of 2009] and order dated 05.08.2013 of the Hon'ble National Green Tribunal in application No. 171/2013 & 173/2018 be strictly followed.

6. PP to ensure that, the area for removal of the minerals shall not exceed 60% of the mine lease area before issuing final lease.

7. PP to identify the central 3/4th part of river on map where there is a deposition of sand and remaining 1/4th area needs to be kept as no mining zone for the protection of the bank.

8. PP to install permanent boundary pillars at the identified area of the aggradation and deposition outside the bank of the river at a safe location for future surveying. The distance between boundaries on each side of the bank shall not be more than 100 meters.

9. PP to ensure that no mining activity is carried out below the depth as approved by the Competent Authority.

10. PP to make sure that the Environmental Management Plan and CER plan as presented shall be included in the lease agreement to be signed with the lease holder and ensure its implementation.

11. PP to ensure that, the distance of mining activity area from the river bank shall be 1/4th of the river bed width and should not be less than 7.5 meters.

12. PP to ensure that, sand shall not be extracted up to a distance of 1 km from bridges and highways on both sides, or five times (5x) of the span (x) of bridge, public civil structure (including water intake point) on upstream side and ten times (10 x) the span of such bridge on downstream side, subjected to a minimum of 250 meters on the upstream and 500 meters on the downstream side.

13. The District Collector shall define the transportation route from the mining lease considering the maximum production from the mines, size of mining lease, their location, the quantity of mineral that can be mined safely etc considering the movement of trucks/ tippers/tractors for the villages having habitation shall be avoided.

14. PP to ensure following additional measures are to be provided by the leaseholder to prevent any vehicle from transporting sand out of the lease area bypassing the IT enabled system,

    a. To provide one entry and exit point for vehicles. In case it is necessary to have more than one entry/exit all such points have check points all digital monitoring facilities as mentioned in the Enforcement and Monitoring Guidelines issued by MoEF&CC in January 2020. All other possible ways of entry /exit shall be closed using barriers. All provisions shall be made to not make it possible for any vehicle to enter or exit without entry into the computerized system.
    b. All such point shall have 24x7 CCTV coverage, the footage of which shall be submitted to the District Collector by the lease holder at mutually agreed frequencies.

15. The route of mineral transportation vehicle from source to destination shall be tracked through the system using checkpoints, Radio-frequency identification (RFID) tags, and GPS tracking.

16. PP shall carry out sand mining by manual method only. No mechanical /electrical/power driven devices shall be used for sand mining purpose.

17. PP to ensure no stream is diverted due to sand mining activity.

18. PP to ensure that mining/ loading activity shall be restricted to day hours' time only. No mining activity shall be carried out after sunset and before sun rise.

19. PP to ensure that, no vehicles should ply in the river bed.

20. PP to ensure that there is no damage to any fauna and its nesting close to the sand mining.

21. PP to ensure that adequate measures like maintenance of roads, sprinkling of water and plantation is carried out to reduce the dust particulate matter pollution.

22. PP to provide movable bio toilets to the workers working in the area and the sewage generated shall be properly collected and treated so as to confirm to the standards prescribed by MoEF&CC and CPCB.

23. PP to ensure that parking shall be done at designated place only and shall not be done Public roads or in the river bed.

24. The sand transportation shall be carried out through the covered trucks only and the vehicles carrying the mineral shall not be overloaded.

25. PP to provide First Aid facility at the proposed mining site.

26. PP to provide bio toilet on the site and ensure treatment of swage to meet the prescribed parameters as stipulated by the CPCB/MPCB.

27. PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Vazar bk. 1 & 2**from their CER funds of Rs. 5 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

28. The District Collector to ensure strict compliance of all conditions stipulated in the Environmental Clearance. The District Collector should strictly monitor the compliance of the conditions stipulated in the Environment Clearance letter.

Minutes of 188th meeting of SEAC-1 (Day-3)
Date: 22nd to 24th July, 2020

Venue: Through Video Conferencing

17. Proposal No. **SIA/MH/MIN/152829**	Type: **EC**

INTRODUCTION:

This has reference to your online application vide proposal No. 152829 submitted along with copies of documents seeking the prior Environmental Clearance under the provisions of the EIA Notification, 2006. The proposed project activity is listed at Sr. No. 1(a) Mining of Minerals under category B of the EIA Notification, 2006 amended from time to time and the proposal is appraised in the SEAC-1 committee.

PROJECT DETAILS:

Environment Clearance for Proposed sand ghat located in adjacent to Kh. No.: 24, 52, 53, 54, 55, 61, 62, 63, 64, 65, 272, 276, 284, 285, 286, 287, 288, 293 , Area:2.88 Ha Mouza: Jodparali, Tal& Dist.- Parbhani by District Mining Officer,Parbhani.

Details of earlier EC if any:

No

If yes, Earlier EC No. …… dated ……..; PP to submit copy of certified compliance obtained from the Regional Office of MoEF&CC, Nagpur.

DELIBERATIONS IN SEAC:

After deliberations SEAC observed:-

PP has submitted 30 proposals of prior Environmental Clearance for sand mining from three rivers namely Godavari. Purna, Dudhna of Parbhani District. The Public hearing was conducted on 16th & 17th March 2020. PP submitted Public Hearing report.

The proposal was earlier considered in the 184th meeting of SEAC-1 held on 2nd June 2020 wherein the proposal was deferred for want of additional information required for proper appraisal.

Now, PP presented the compliance.

SEAC-1 apprised the proposal based on the information presented by the Project Proponent and their consultant during the meeting. The District Collector, Parbhani was also present for the meeting.

PP proposes to provide capital EMP cost of Rs. 8.47 Lakhs and recurring EMP cost of Rs. 12.70 Lakhs.

PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Jodparali** from their CER funds of Rs. 4 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

Minutes of 188th meeting of SEAC-1 (Day-3)
Date: 22nd to 24th July, 2020

Venue: Through Video Conferencing

RECOMMENDATIONS OF SEAC:

The committee's recommendations:-

After detailed deliberations with the PP and their consultant, SEAC-1 decided to recommend the proposal for prior Environmental Clearance to the SEIAA subject to the following conditions.

CONCLUSION:

Recommended

Conditions:

1. DMO to demarcate the proposed sand ghat along with other infrastructure and facilities as presented in the layout and ensure to provide the demarcation pillar of each sand ghat mine along with geo-referencing before issuing final lease document.

2. The District Collect shall ensure that, the approach road from the proposed sand ghat to the sand storage depot is properly identified and demarcated with the consent of the concern land owners before issuing final lease document.

3. PP to ensure strict compliance of Enforcement & Monitoring Guidelines published by the MoEF&CC in January 2020.

4. PP to adhere to the provisions stipulated in the Sustainable Sand Mining Guidelines issued by MoEF&CC, Maharashtra Minor Mineral Extraction (Development and Regulation) Rules, 2013 and Sand Extraction Policy issued by Maharashtra Government in Revenue and Forest Department.

5. The District Collector and District Mining Officer shall ensure that there is no violation of any order with respect to the sand mining activity passed by the Competent Court. (Particularly, the directions given by Hon'ble Supreme Court of India vide order dated 27.02.2012 in Deepak Kumar case [SLP (C) Nos. 19628-19629 of 2009] and order dated 05.08.2013 of the Hon'ble National Green Tribunal in application No. 171/2013 & 173/2018 be strictly followed.

6. PP to ensure that, the area for removal of the minerals shall not exceed 60% of the mine lease area before issuing final lease.

7. PP to identify the central 3/4th part of river on map where there is a deposition of sand and remaining 1/4th area needs to be kept as no mining zone for the protection of the bank.

8. PP to install permanent boundary pillars at the identified area of the aggradation and deposition outside the bank of the river at a safe location for future surveying. The distance between boundaries on each side of the bank shall not be more than 100 meters.

9. PP to ensure that no mining activity is carried out below the depth as approved by the Competent Authority.

10. PP to make sure that the Environmental Management Plan and CER plan as presented shall be included in the lease agreement to be signed with the lease holder and ensure its implementation.

11. PP to ensure that, the distance of mining activity area from the river bank shall be 1/4th of the river bed width and should not be less than 7.5 meters.

12. PP to ensure that, sand shall not be extracted up to a distance of 1 km from bridges and highways on both sides, or five times (5x) of the span (x) of bridge, public civil structure (including water intake point) on upstream side and ten times (10 x) the span of such bridge on downstream side, subjected to a minimum of 250 meters on the upstream and 500 meters on the downstream side.

13. The District Collector shall define the transportation route from the mining lease considering the maximum production from the mines, size of mining lease, their location, the quantity of mineral that can be mined safely etc considering the movement of trucks/ tippers/tractors for the villages having habitation shall be avoided.

14. PP to ensure following additional measures are to be provided by the leaseholder to prevent any vehicle from transporting sand out of the lease area bypassing the IT enabled system,

    a. To provide one entry and exit point for vehicles. In case it is necessary to have more than one entry/exit all such points have check points all digital monitoring facilities as mentioned in the Enforcement and Monitoring Guidelines issued by MoEF&CC in January 2020. All other possible ways of entry /exit shall be closed using barriers. All provisions shall be made to not make it possible for any vehicle to enter or exit without entry into the computerized system.
    b. All such point shall have 24x7 CCTV coverage, the footage of which shall be submitted to the District Collector by the lease holder at mutually agreed frequencies.

15. The route of mineral transportation vehicle from source to destination shall be tracked through the system using checkpoints, Radio-frequency identification (RFID) tags, and GPS tracking.

16. PP shall carry out sand mining by manual method only. No mechanical /electrical/power driven devices shall be used for sand mining purpose.

17. PP to ensure no stream is diverted due to sand mining activity.

18. PP to ensure that mining/ loading activity shall be restricted to day hours' time only. No mining activity shall be carried out after sunset and before sun rise.

19. PP to ensure that, no vehicles should ply in the river bed.

20. PP to ensure that there is no damage to any fauna and its nesting close to the sand mining.

21. PP to ensure that adequate measures like maintenance of roads, sprinkling of water and plantation is carried out to reduce the dust particulate matter pollution.

22. PP to provide movable bio toilets to the workers working in the area and the sewage generated shall be properly collected and treated so as to confirm to the standards prescribed by MoEF&CC and CPCB.

23. PP to ensure that parking shall be done at designated place only and shall not be done Public roads or in the river bed.

24. The sand transportation shall be carried out through the covered trucks only and the vehicles carrying the mineral shall not be overloaded.

25. PP to provide First Aid facility at the proposed mining site.

26. PP to provide bio toilet on the site and ensure treatment of swage to meet the prescribed parameters as stipulated by the CPCB/MPCB.

27. PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Jodparali** from their CER funds of Rs. 4 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

28. The District Collector to ensure strict compliance of all conditions stipulated in the Environmental Clearance. The District Collector should strictly monitor the compliance of the conditions stipulated in the Environment Clearance letter.

RECOMMENDATIONS OF SEAC:

The committee's recommendations:-

After detailed deliberations with the PP and their consultant, SEAC-1 decided to recommend the proposal for prior Environmental Clearance to the SEIAA subject to the following conditions.

CONCLUSION:

Recommended

Conditions:

1. DMO to demarcate the proposed sand ghat along with other infrastructure and facilities as presented in the layout and ensure to provide the demarcation pillar of each sand ghat mine along with geo-referencing before issuing final lease document.

2. The District Collect shall ensure that, the approach road from the proposed sand ghat to the sand storage depot is properly identified and demarcated with the consent of the concern land owners before issuing final lease document.

3. PP to ensure strict compliance of Enforcement & Monitoring Guidelines published by the MoEF&CC in January 2020.

4. PP to adhere to the provisions stipulated in the Sustainable Sand Mining Guidelines issued by MoEF&CC, Maharashtra Minor Mineral Extraction (Development and Regulation) Rules, 2013 and Sand Extraction Policy issued by Maharashtra Government in Revenue and Forest Department.

5. The District Collector and District Mining Officer shall ensure that there is no violation of any order with respect to the sand mining activity passed by the Competent Court. (Particularly, the directions given by Hon'ble Supreme Court of India vide order dated 27.02.2012 in Deepak Kumar case [SLP (C) Nos. 19628-19629 of 2009] and order dated 05.08.2013 of the Hon'ble National Green Tribunal in application No. 171/2013 & 173/2018 be strictly followed.

6. PP to ensure that, the area for removal of the minerals shall not exceed 60% of the mine lease area before issuing final lease.

7. PP to identify the central 3/4th part of river on map where there is a deposition of sand and remaining 1/4th area needs to be kept as no mining zone for the protection of the bank.

8. PP to install permanent boundary pillars at the identified area of the aggradation and deposition outside the bank of the river at a safe location for future surveying. The distance between boundaries on each side of the bank shall not be more than 100 meters.

9. PP to ensure that no mining activity is carried out below the depth as approved by the Competent Authority.

10. PP to make sure that the Environmental Management Plan and CER plan as presented shall be included in the lease agreement to be signed with the lease holder and ensure its implementation.

11. PP to ensure that, the distance of mining activity area from the river bank shall be 1/4th of the river bed width and should not be less than 7.5 meters.

12. PP to ensure that, sand shall not be extracted up to a distance of 1 km from bridges and highways on both sides, or five times (5x) of the span (x) of bridge, public civil structure (including water intake point) on upstream side and ten times (10 x) the span of such bridge on downstream side, subjected to a minimum of 250 meters on the upstream and 500 meters on the downstream side.

13. The District Collector shall define the transportation route from the mining lease considering the maximum production from the mines, size of mining lease, their location, the quantity of mineral that can be mined safely etc considering the movement of trucks/ tippers/tractors for the villages having habitation shall be avoided.

14. PP to ensure following additional measures are to be provided by the leaseholder to prevent any vehicle from transporting sand out of the lease area bypassing the IT enabled system,

    a. To provide one entry and exit point for vehicles. In case it is necessary to have more than one entry/exit all such points have check points all digital monitoring facilities as mentioned in the Enforcement and Monitoring Guidelines issued by MoEF&CC in January 2020. All other possible ways of entry /exit shall be closed using barriers. All provisions shall be made to not make it possible for any vehicle to enter or exit without entry into the computerized system.
    b. All such point shall have 24x7 CCTV coverage, the footage of which shall be submitted to the District Collector by the lease holder at mutually agreed frequencies.

15. The route of mineral transportation vehicle from source to destination shall be tracked through the system using checkpoints, Radio-frequency identification (RFID) tags, and GPS tracking.

16. PP shall carry out sand mining by manual method only. No mechanical /electrical/power driven devices shall be used for sand mining purpose.

17. PP to ensure no stream is diverted due to sand mining activity.

18. PP to ensure that mining/ loading activity shall be restricted to day hours' time only. No mining activity shall be carried out after sunset and before sun rise.

19. PP to ensure that, no vehicles should ply in the river bed.

20. PP to ensure that there is no damage to any fauna and its nesting close to the sand mining.

21. PP to ensure that adequate measures like maintenance of roads, sprinkling of water and plantation is carried out to reduce the dust particulate matter pollution.

22. PP to provide movable bio toilets to the workers working in the area and the sewage generated shall be properly collected and treated so as to confirm to the standards prescribed by MoEF&CC and CPCB.

23. PP to ensure that parking shall be done at designated place only and shall not be done Public roads or in the river bed.

24. The sand transportation shall be carried out through the covered trucks only and the vehicles carrying the mineral shall not be overloaded.

25. PP to provide First Aid facility at the proposed mining site.

26. PP to provide bio toilet on the site and ensure treatment of swage to meet the prescribed parameters as stipulated by the CPCB/MPCB.

27. PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Penur** from their CER funds of Rs. 4 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

28. The District Collector to ensure strict compliance of all conditions stipulated in the Environmental Clearance. The District Collector should strictly monitor the compliance of the conditions stipulated in the Environment Clearance letter.

20. Proposal No. **SIA/MH/MIN/152916**	Type: **EC**

INTRODUCTION:

This has reference to your online application vide proposal No. 152916 submitted along with copies of documents seeking the prior Environmental Clearance under the provisions of the EIA Notification, 2006. The proposed project activity is listed at Sr. No. 1(a) Mining of Minerals under category B of the EIA Notification, 2006 amended from time to time and the proposal is appraised in the SEAC-1 committee.

PROJECT DETAILS:

Environment Clearance for Proposed sand ghat located in adjacent to Kh. No.: 427, 732, 436, 440, 441, 442, 443, 445, 458, 459, 463, 466, 468, 470, 474, 475, 485, 487, 488, 489, 490, 504, 505, 506 Area:2.93 Ha. Mouza:Dhangar Takli, Tehsil: Purna, District: Parbhani, by District Mining Officer,Parbhani.

Details of earlier EC if any:

No

If yes, Earlier EC No. …… dated ……..; PP to submit copy of certified compliance obtained from the Regional Office of MoEF&CC, Nagpur.

DELIBERATIONS IN SEAC:

After deliberations SEAC observed:-

PP has submitted 30 proposals of prior Environmental Clearance for sand mining from three rivers namely Godavari. Purna, Dudhna of Parbhani District. The Public hearing was conducted on 16th & 17th March 2020. PP submitted Public Hearing report.

The proposal was earlier considered in the 184th meeting of SEAC-1 held on 2nd June 2020 wherein the proposal was deferred for want of additional information required for proper appraisal.

Now, PP presented the compliance.

SEAC-1 apprised the proposal based on the information presented by the Project Proponent and their consultant during the meeting. The District Collector, Parbhani was also present for the meeting.

PP proposes to provide capital EMP cost of Rs. 7.22 Lakhs and recurring EMP cost of Rs. 11.85 Lakhs.

PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Dhangar Takli** from their CER funds of Rs. 4 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

RECOMMENDATIONS OF SEAC:

The committee's recommendations:-

After detailed deliberations with the PP and their consultant, SEAC-1 decided to recommend the proposal for prior Environmental Clearance to the SEIAA subject to the following conditions.

CONCLUSION:

Recommended

Conditions:

1. DMO to demarcate the proposed sand ghat along with other infrastructure and facilities as presented in the layout and ensure to provide the demarcation pillar of each sand ghat mine along with geo-referencing before issuing final lease document.

2. The District Collect shall ensure that, the approach road from the proposed sand ghat to the sand storage depot is properly identified and demarcated with the consent of the concern land owners before issuing final lease document.

3. PP to ensure strict compliance of Enforcement & Monitoring Guidelines published by the MoEF&CC in January 2020.

4. PP to adhere to the provisions stipulated in the Sustainable Sand Mining Guidelines issued by MoEF&CC, Maharashtra Minor Mineral Extraction (Development and Regulation) Rules, 2013 and Sand Extraction Policy issued by Maharashtra Government in Revenue and Forest Department.

5. The District Collector and District Mining Officer shall ensure that there is no violation of any order with respect to the sand mining activity passed by the Competent Court. (Particularly, the directions given by Hon'ble Supreme Court of India vide order dated 27.02.2012 in Deepak Kumar case [SLP (C) Nos. 19628-19629 of 2009] and order dated 05.08.2013 of the Hon'ble National Green Tribunal in application No. 171/2013 & 173/2018 be strictly followed.

6. PP to ensure that, the area for removal of the minerals shall not exceed 60% of the mine lease area before issuing final lease.

7. PP to identify the central 3/4th part of river on map where there is a deposition of sand and remaining 1/4th area needs to be kept as no mining zone for the protection of the bank.

8. PP to install permanent boundary pillars at the identified area of the aggradation and deposition outside the bank of the river at a safe location for future surveying. The distance between boundaries on each side of the bank shall not be more than 100 meters.

9. PP to ensure that no mining activity is carried out below the depth as approved by the Competent Authority.

10. PP to make sure that the Environmental Management Plan and CER plan as presented shall be included in the lease agreement to be signed with the lease holder and ensure its implementation.

11. PP to ensure that, the distance of mining activity area from the river bank shall be $1/4^{th}$ of the river bed width and should not be less than 7.5 meters.

12. PP to ensure that, sand shall not be extracted up to a distance of 1 km from bridges and highways on both sides, or five times (5x) of the span (x) of bridge, public civil structure (including water intake point) on upstream side and ten times (10 x) the span of such bridge on downstream side, subjected to a minimum of 250 meters on the upstream and 500 meters on the downstream side.

13. The District Collector shall define the transportation route from the mining lease considering the maximum production from the mines, size of mining lease, their location, the quantity of mineral that can be mined safely etc considering the movement of trucks/ tippers/tractors for the villages having habitation shall be avoided.

14. PP to ensure following additional measures are to be provided by the leaseholder to prevent any vehicle from transporting sand out of the lease area bypassing the IT enabled system,

    a. To provide one entry and exit point for vehicles. In case it is necessary to have more than one entry/exit all such points have check points all digital monitoring facilities as mentioned in the Enforcement and Monitoring Guidelines issued by MoEF&CC in January 2020. All other possible ways of entry /exit shall be closed using barriers. All provisions shall be made to not make it possible for any vehicle to enter or exit without entry into the computerized system.
    b. All such point shall have 24x7 CCTV coverage, the footage of which shall be submitted to the District Collector by the lease holder at mutually agreed frequencies.

15. The route of mineral transportation vehicle from source to destination shall be tracked through the system using checkpoints, Radio-frequency identification (RFID) tags, and GPS tracking.

16. PP shall carry out sand mining by manual method only. No mechanical /electrical/power driven devices shall be used for sand mining purpose.

17. PP to ensure no stream is diverted due to sand mining activity.

18. PP to ensure that mining/ loading activity shall be restricted to day hours' time only. No mining activity shall be carried out after sunset and before sun rise.

19. PP to ensure that, no vehicles should ply in the river bed.

20. PP to ensure that there is no damage to any fauna and its nesting close to the sand mining.

21. PP to ensure that adequate measures like maintenance of roads, sprinkling of water and plantation is carried out to reduce the dust particulate matter pollution.

22. PP to provide movable bio toilets to the workers working in the area and the sewage generated shall be properly collected and treated so as to confirm to the standards prescribed by MoEF&CC and CPCB.

23. PP to ensure that parking shall be done at designated place only and shall not be done Public roads or in the river bed.

24. The sand transportation shall be carried out through the covered trucks only and the vehicles carrying the mineral shall not be overloaded.

25. PP to provide First Aid facility at the proposed mining site.

26. PP to provide bio toilet on the site and ensure treatment of swage to meet the prescribed parameters as stipulated by the CPCB/MPCB.

27. PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Dhangar Takli** from their CER funds of Rs. 4 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

28. The District Collector to ensure strict compliance of all conditions stipulated in the Environmental Clearance. The District Collector should strictly monitor the compliance of the conditions stipulated in the Environment Clearance letter.

Minutes of 188th meeting of SEAC-1 (Day-3)
Date: 22nd to 24th July, 2020

21. Proposal No. **SIA/MH/MIN/152920**	Type: **EC**

INTRODUCTION:

This has reference to your online application vide proposal No. 152920 submitted along with copies of documents seeking the prior Environmental Clearance under the provisions of the EIA Notification, 2006. The proposed project activity is listed at Sr. No. 1(a) Mining of Minerals under category B of the EIA Notification, 2006 amended from time to time and the proposal is appraised in the SEAC-1 committee.

PROJECT DETAILS:

Environment Clearance for Proposed sand ghat located in adjacent to Kh. No.: 281, 282, 283, 285, 288, 308, 318, Area:3.06 Ha. Mouza: Dhanora Motya, Tehsil: Purna, District: Parbhani by District Mining Officer,Parbhani.

Details of earlier EC if any:

Yes

If yes, Earlier EC No. 0000002278 dated 19.02.2019; PP to submit copy of certified compliance obtained from the Regional Office of MoEF&CC, Nagpur.

DELIBERATIONS IN SEAC:

After deliberations SEAC observed:-

PP has submitted 30 proposals of prior Environmental Clearance for sand mining from three rivers namely Godavari. Purna, Dudhna of Parbhani District. The Public hearing was conducted on 16th & 17th March 2020. PP submitted Public Hearing report.

The proposal was earlier considered in the 184th meeting of SEAC-1 held on 2nd June 2020 wherein the proposal was deferred for want of additional information required for proper appraisal.

Now, PP presented the compliance.

SEAC-1 apprised the proposal based on the information presented by the Project Proponent and their consultant during the meeting. The District Collector, Parbhani was also present for the meeting.

PP proposes to provide capital EMP cost of Rs. 6.93 Lakhs and recurring EMP cost of Rs. 13.4 Lakhs.

PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Dhanora Motya** from their CER funds of Rs. 4 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

Minutes of 188th meeting of SEAC-1 (Day-3)
Date: 22nd to 24th July, 2020

Venue: Through Video Conferencing

RECOMMENDATIONS OF SEAC:

The committee's recommendations:-

After detailed deliberations with the PP and their consultant, SEAC-1 decided to recommend the proposal for prior Environmental Clearance to the SEIAA subject to the following conditions.

CONCLUSION:

Recommended

Conditions:

1. PP to submit to the SEIAA, the certified compliance of the earlier Environmental Clearance conditions to be obtained from the Regional Office of MoEF&CC, Nagpur.

2. DMO to demarcate the proposed sand ghat along with other infrastructure and facilities as presented in the layout and ensure to provide the demarcation pillar of each sand ghat mine along with geo-referencing before issuing final lease document.

3. The District Collect shall ensure that, the approach road from the proposed sand ghat to the sand storage depot is properly identified and demarcated with the consent of the concern land owners before issuing final lease document.

4. PP to ensure strict compliance of Enforcement & Monitoring Guidelines published by the MoEF&CC in January 2020.

5. PP to adhere to the provisions stipulated in the Sustainable Sand Mining Guidelines issued by MoEF&CC, Maharashtra Minor Mineral Extraction (Development and Regulation) Rules, 2013 and Sand Extraction Policy issued by Maharashtra Government in Revenue and Forest Department.

6. The District Collector and District Mining Officer shall ensure that there is no violation of any order with respect to the sand mining activity passed by the Competent Court. (Particularly, the directions given by Hon'ble Supreme Court of India vide order dated 27.02.2012 in Deepak Kumar case [SLP (C) Nos. 19628-19629 of 2009] and order dated 05.08.2013 of the Hon'ble National Green Tribunal in application No. 171/2013 & 173/2018 be strictly followed.

7. PP to ensure that, the area for removal of the minerals shall not exceed 60% of the mine lease area before issuing final lease.

8. PP to identify the central 3/4th part of river on map where there is a deposition of sand and remaining 1/4th area needs to be kept as no mining zone for the protection of the bank.

9. PP to install permanent boundary pillars at the identified area of the aggradation and deposition outside the bank of the river at a safe location for future surveying. The distance between boundaries on each side of the bank shall not be more than 100 meters.

10. PP to ensure that no mining activity is carried out below the depth as approved by the Competent Authority.

11. PP to make sure that the Environmental Management Plan and CER plan as presented shall be included in the lease agreement to be signed with the lease holder and ensure its implementation.

12. PP to ensure that, the distance of mining activity area from the river bank shall be 1/4th of the river bed width and should not be less than 7.5 meters.

13. PP to ensure that, sand shall not be extracted up to a distance of 1 km from bridges and highways on both sides, or five times (5x) of the span (x) of bridge, public civil structure (including water intake point) on upstream side and ten times (10 x) the span of such bridge on downstream side, subjected to a minimum of 250 meters on the upstream and 500 meters on the downstream side.

14. The District Collector shall define the transportation route from the mining lease considering the maximum production from the mines, size of mining lease, their location, the quantity of mineral that can be mined safely etc considering the movement of trucks/ tippers/tractors for the villages having habitation shall be avoided.

15. PP to ensure following additional measures are to be provided by the leaseholder to prevent any vehicle from transporting sand out of the lease area bypassing the IT enabled system,

    a. To provide one entry and exit point for vehicles. In case it is necessary to have more than one entry/exit all such points have check points all digital monitoring facilities as mentioned in the Enforcement and Monitoring Guidelines issued by MoEF&CC in January 2020. All other possible ways of entry /exit shall be closed using barriers. All provisions shall be made to not make it possible for any vehicle to enter or exit without entry into the computerized system.
    b. All such point shall have 24x7 CCTV coverage, the footage of which shall be submitted to the District Collector by the lease holder at mutually agreed frequencies.

16. The route of mineral transportation vehicle from source to destination shall be tracked through the system using checkpoints, Radio-frequency identification (RFID) tags, and GPS tracking.

17. PP shall carry out sand mining by manual method only. No mechanical /electrical/power driven devices shall be used for sand mining purpose.

18. PP to ensure no stream is diverted due to sand mining activity.

19. PP to ensure that mining/ loading activity shall be restricted to day hours' time only. No mining activity shall be carried out after sunset and before sun rise.

20. PP to ensure that, no vehicles should ply in the river bed.

21. PP to ensure that there is no damage to any fauna and its nesting close to the sand mining.

22. PP to ensure that adequate measures like maintenance of roads, sprinkling of water and plantation is carried out to reduce the dust particulate matter pollution.

23. PP to provide movable bio toilets to the workers working in the area and the sewage generated shall be properly collected and treated so as to confirm to the standards prescribed by MoEF&CC and CPCB.

24. PP to ensure that parking shall be done at designated place only and shall not be done Public roads or in the river bed.

25. The sand transportation shall be carried out through the covered trucks only and the vehicles carrying the mineral shall not be overloaded.

26. PP to provide First Aid facility at the proposed mining site.

27. PP to provide bio toilet on the site and ensure treatment of swage to meet the prescribed parameters as stipulated by the CPCB/MPCB.

28. PP to provide solar panels, Gents/Ladies sanitation facility/ Safe drinking water facility in the Z.P. School in village **Dhanora Motya** from their CER funds of Rs. 4 Lakhs in consultation with the District Authority as per OM issued by MoEF&CC dated 01.05.2018.

29. The District Collector to ensure strict compliance of all conditions stipulated in the Environmental Clearance. The District Collector should strictly monitor the compliance of the conditions stipulated in the Environment Clearance letter.

28. The District Collector to ensure strict compliance of all conditions stipulated in the Environmental Clearance. The District Collector should strictly monitor the compliance of the conditions stipulated in the Environment Clearance letter.

Minutes of 188th meeting of SEAC-1 (Day-3)
Date: 22nd to 24th July, 2020

Venue: Through Video Conferencing

23. Proposal No. **SIA/MH/MIN/152888**	Type: **EC**

INTRODUCTION:

This has reference to your online application vide proposal No. 152888 submitted along with copies of documents seeking the Environmental Clearance under the provisions of the EIA Notification, 2006.. The proposed project activity is listed at Sr. No. 1(a) Mining of Minerals under category B of the EIA Notification, 2006 amended from time to time and the proposal is appraised in the SEAC-1 committee.

PROJECT DETAILS:

Environment Clearance for Proposed sand ghat located in Adjacent Kh. 1,2,7,8,9,10,11,&12 Area :0.45 Ha. Mouza: Shevdi Jahangir, Tehsil:Manvat, District:Parbhani by District Mining Officer,Parbhani.

Details of earlier EC if any:

No

If yes, Earlier EC No. …… dated …….; PP to submit copy of certified compliance obtained from the Regional Office of MoEF&CC, Nagpur.

DELIBERATIONS IN SEAC:

After deliberations SEAC observed:-

PP has submitted 30 proposals of prior Environmental Clearance for sand mining from three rivers namely Godavari. Purna, Dudhna of Parbhani District. The Public hearing was conducted on 16th & 17th March 2020. PP submitted Public Hearing report.

The proposal was earlier considered in the 184th meeting of SEAC-1 held on 2nd June 2020 wherein the proposal was deferred for want of additional information required for proper appraisal.

Now, PP presented the compliance.

As per the provision of the rule 19 of the Maharashtra Minor Mineral Extraction (Development and Regulation) Rules, 2013 the minimum area that may be granted under a quarry lease shall not be less than one hector.

During deliberation it was observed that the size of proposed ghat is only 0.45 Ha. which seems to be difficult to comply with the guidelines prescribed in the Enforcement & Monitoring Guidelines for sand mining published by MoEF&CC. The prefeasibility report submitted by the PP is very vague and does not establish feasibility of sand mining on the very small proposed area for 0.45 Ha.

In view of above SEAC-1 decided to reject the proposal.

PP is advised to conduct a fresh survey for larger area in the same river bed and prepare pre-feasibility report to ensure its viability and feasibility for sand mining.

RECOMMENDATIONS OF SEAC:

The committee's recommendations:-

After detailed deliberations, SEAC-1 decided to recommend the proposal for rejection.

CONCLUSION:

Reject

The proposal was earlier considered in the 184th meeting of SEAC-1 held on 2nd June 2020 wherein the proposal was deferred for want of additional information required for proper appraisal.

Now, PP presented the compliance.

As per the provision of the rule 19 of the Maharashtra Minor Mineral Extraction (Development and Regulation) Rules, 2013 the minimum area that may be granted under a quarry lease shall not be less than one hector.

During deliberation it was observed that the size of proposed ghat is only 0.75 Ha. which seems to be difficult to comply with the guidelines prescribed in the Enforcement & Monitoring Guidelines for sand mining published by MoEF&CC. The prefeasibility report submitted by the PP is very vague and does not establish feasibility of sand mining on the very small proposed area for 0.75 Ha.

In view of above SEAC-1 decided to reject the proposal.

PP is advised to conduct a fresh survey for larger area in the same river bed and prepare pre-feasibility report to ensure its viability and feasibility for sand mining.

RECOMMENDATIONS OF SEAC:

The committee's recommendations:-

After detailed deliberations, SEAC-1 decided to recommend the proposal for rejection.

CONCLUSION:

Reject

Minutes of 188th meeting of SEAC-1 (Day-3)
Date: 22nd to 24th July, 2020

Venue: Through Video Conferencing

26. Proposal No. **SIA/MH/MIN/152836**	Type: **EC**

INTRODUCTION:

This has reference to your online application vide proposal No. 152836 submitted along with copies of documents seeking the Environmental Clearance under the provisions of the EIA Notification, 2006.. The proposed project activity is listed at Sr. No. 1(a) Mining of Minerals under category B of the EIA Notification, 2006 amended from time to time and the proposal is appraised in the SEAC-1 committee.

PROJECT DETAILS:

Environment Clearance for Proposed sand ghat located in adjacent to Adjacent Kh. No.: 1, 2, 3, 4, 5, 22, 23, 25, 26, 27, 28 ,Area:0.75 Ha.Mouza: Rahati, Tehsil: Palam, District: Parbhani,by District Mining Officer,Parbhani.

Details of earlier EC if any:

No

If yes, Earlier EC No. …… dated …….; PP to submit copy of certified compliance obtained from the Regional Office of MoEF&CC, Nagpur.

DELIBERATIONS IN SEAC:

After deliberations SEAC observed:-

PP has submitted 30 proposals of prior Environmental Clearance for sand mining from three rivers namely Godavari. Purna, Dudhna of Parbhani District. The Public hearing was conducted on 16th & 17th March 2020. PP submitted Public Hearing report.

The proposal was earlier considered in the 184th meeting of SEAC-1 held on 2nd June 2020 wherein the proposal was deferred for want of additional information required for proper appraisal.

Now, PP presented the compliance.

As per the provision of the rule 19 of the Maharashtra Minor Mineral Extraction (Development and Regulation) Rules, 2013 the minimum area that may be granted under a quarry lease shall not be less than one hector.

During deliberation it was observed that the size of proposed ghat is only 0.99 Ha. which seems to be difficult to comply with the guidelines prescribed in the Enforcement & Monitoring Guidelines for sand mining published by MoEF&CC. The prefeasibility report submitted by the PP is very vague and does not establish feasibility of sand mining on the very small proposed area for 0.99 Ha.

In view of above SEAC-1 decided to reject the proposal.

PP is advised to conduct a fresh survey for larger area in the same river bed and prepare pre-feasibility report to ensure its viability and feasibility for sand mining.

This has reference to your online application vide proposal No. 152832 submitted along with copies of documents seeking the prior Environmental Clearance under the provisions of the EIA Notification, 2006.. The proposed project activity is listed at Sr. No. 1(a) Mining of Minerals under category B of the EIA Notification, 2006 amended from time to time and the proposal is appraised in the SEAC-1 committee.

PROJECT DETAILS:

Environment Clearance for Proposed sand ghat located in adjacent to Kh. No.: 1194, 193, 195, 196, 197, 198 , Area:5.00 Ha Mouza: Pimpalgaon Balapur, Tehsil: Purna, District: Parbhani by District Mining Officer,Parbhani.

Details of earlier EC if any:

No

If yes, Earlier EC No. …… dated …….; PP to submit copy of certified compliance obtained from the Regional Office of MoEF&CC, Nagpur.

DELIBERATIONS IN SEAC:

After deliberations SEAC observed:-

PP has submitted 30 proposals of prior Environmental Clearance for sand mining from three rivers namely Godavari. Purna, Dudhna of Parbhani District. The Public hearing was conducted on 16th & 17th March 2020. PP submitted Public Hearing report.

The proposal was earlier considered in the 184th meeting of SEAC-1 held on 2nd June 2020 wherein the proposal was deferred for want of additional information required for proper appraisal.

Now, PP presented the compliance.

During deliberation it was observed that the size of proposed sand ghat is 5.00 Ha which needs to be considered as category "B1" as per para 22 of the order passed by the Hon'ble National Green tribunal on 13.09.2018 in the matter of OA 186/2016, 200/2016, 580/2016, 102/2017,404/2016,405/2016, 520/2016 which reads as below,

".....22. For all these reasons, we direct that the procedure laid down in the impugned Notification be brought in consonance and in accord with the directions passed in the case of Deepak Kumar (supra) by (i) providing for EIA, EMP and therefore, Public Consultation for all

areas from 5 to 25 ha. falling under category B2 at par with Category B1 by SEAC/SEIAA as well as for cluster situation where it is not provided……"

In view of above SEAC-1 is of the opinion that, present proposal of sand mining will have to be considered at par with category B1.

PP is advised to apply a fresh as per above mentioned Hon'ble National Green tribunal Order on PARIVESH portal hence decided to recommend the proposal for rejection.
